Backbone Detectives · Tier Pack · Supported

Learning goal: I can use inside body clues to sort tricky animals and explain my choice.

Supported Route (Book First)

Sort six creature cards using the fish and crab anchor cards. Point to the clue that proves one choice.

Help: Does it match the fish (backbone inside) or the crab (no backbone)?

Optional Make It · Supported

Make an anchor pair strip

Glue or draw the fish spine and crab shell at the top of a strip. Match four creatures underneath. In your book: tick your list too.

Word Help

vertebrate: an animal with a backbone inside

invertebrate: an animal with no backbone inside

evidence: a body clue that proves your choice

exoskeleton: a hard case on the outside of a body

Exit Check

What one clue proves an animal is a vertebrate?
