Body Needs · Pupil Resources

Learning goal: I can say how animals get food and match food to three jobs in the body.

Arrival Questions (In your book)

1. Can a human make food from sunlight?
2. Who makes its own food using light?
3. What drink do we need every day?
4. Can you ask an adult to help?

Starter Question

Why do humans and other animals need to eat food?

A. They cannot make their own food, and they need energy, growth, and health.

B. Their leaves make sugar in the sun.

C. They only eat to fill up space.

Method Strip

1. Lay the Go, Grow, and Keep Well mats flat on your desk.
2. Read or listen to the first body-job card. STOP AND CHECK which job it needs.
3. Place the card on the matching mat.
4. Sort all six cards and add the Water card to the daily need box.
5. Write or say one food job in your book.

Exit Ticket

Who must eat food to live: a green plant or a dog?

Name one job that food does inside your body.

Why do we need both food and water every day?
