Body Needs · TA Brief

Learning goal: I can say how animals get food and match food to three jobs in the body.

Watch (staff preview first)

Short silent teacher demonstration clip for this lesson's model and practical sequence · preview before class use.

Adult Support Routine

No cold calling; nobody is asked to read difficult text aloud.

Give time to start -> point to the relevant place -> rephrase -> offer a small prompt or word bank -> reduce to a limited choice.

Beside the You do in the pupil book, mark I (independent), S (supported) or C (choice).

Must-Know Words

energy: fuel from food that helps us move and keep warm

grow: to build and mend bones, muscles, and skin

keep well: to help the body fight off illness and stay healthy

water: a drink every living body needs each day

Key Answers

A. Animals cannot make food from light; they eat food for energy, growth, and health.

A. Grow and mend foods build and repair muscles, bones, and skin.

1. A dog (all animals must eat). 2. Gives energy to move, helps us grow and mend, or keeps us well. 3. Food provides fuel and building blocks, and water keeps our body fluids working.
