Your private memorial design plan

Tuesday 2 February 2027 | P2 | 40 minutes | Year A

Humanities | LAUNCH | Spring 1 Week 5 | HUM-LAUNCH-S1-W05

White paper version. Read quietly, point, write, type, speak privately or direct a scribe. You may pass. No public answer or reading aloud is required.

Learning outcome: Create a respectful digital memorial.

Route Supported

How can a memorial design show respect and accurate learning?

1 Use the blank layout guide. Plan one part at a time. An adult may read the cards exactly; choose three facts from F1–F4/F6.

2 Keep each fact's code. Use the frame for your own dedication and responsibility line. Describe your own symbol idea in words if sketching is unhelpful.

3 Use the checklist with an adult. Keep all parts, one change and your reason. Point, type or direct a scribe while keeping your own ideas.

Your own finish

In your book or a plain offline document, plan your own memorial layout. Include a title, a dedication in your own words, three facts from F1–F4/F6 with codes, your own symbol idea and what it means, and a line on responsibility today. Check tone, accuracy and dignity. Keep one change and the reason. The design stays private; do not publish, share or upload it.

Planning frame

Title: ____. This design remembers ____ and recognises ____. Fact 1: ____ (F__). Fact 2: ____ (F__). Fact 3: ____ (F__). My own symbol idea is ____. In this design it means ____. Responsibility today includes ____. I changed ____ because ____.

Plan in any language. Use typing or exact directed scribing. No personal story, pledge, public reading or artistic skill is required.

Learning outcome: Create a respectful digital memorial.

Route Independent

How can a memorial design show respect and accurate learning?

1 Plan your own layout with all required parts. Use three distinct facts from F1–F4/F6 in your own short wording, with codes.

2 Write your dedication and a safe responsibility line. Design your own simple symbol; explain what it means and why it fits.

3 Check tone, accuracy and dignity. Make one reasoned change. Keep the plan private on paper or in a plain offline document.

Learning outcome: Create a respectful digital memorial.

Route Aspire

How can a memorial design show respect and accurate learning?

1 Keep the same common finish. Explain how the order of your title, dedication, facts and symbol helps a reader learn with care.

2 Explain a limit: one design cannot tell every life or the whole history. Do not use a stronger emotional effect as a measure of respect.

3 Revise a choice that could mislead or reduce dignity. Explain why your version is more accurate or respectful, without adding images, accounts or publication.

Your own finish
