Your structured evaluation task

Tuesday 9 February 2027 | P2 | 40 minutes | Year A

Humanities | LAUNCH | Spring 1 Week 6 | HUM-LAUNCH-S1-W06

White paper version. Read quietly, point, write, type, speak privately or direct a scribe. You may pass. No public answer or reading aloud is required.

Learning outcome: Structured evaluation of causes & consequences.

Assessing week | Route Supported

How do evidence and careful judgements help us evaluate the unit?

1 Use the four-part grid and evidence cards. An adult may read exactly. Plan one part at a time with card codes and the frame.

2 Keep two cause factors, the trigger, three Germany rights dates, consequences and remembrance. Use short written sections, typing or exact directed scribing.

3 Keep your own first attempt before seeing the model. Record help used. After a next step, make one labelled follow-up edit with a reason.

Your own first attempt

In your book or a plain offline document, plan and write your own evaluation under four headings: causes of the conflict; rights removed step by step; consequences; why we remember. Weigh two causes and distinguish the trigger. Explain three dated rights steps in Germany and their effects. Explain harm and loss with dignity. Give a reason for remembrance, a safe responsibility and a limit. Use card codes and your own reasons. Keep the first attempt before the model and a later edit. No word target is set.

A frame you may use

Causes: ____ mattered because ____ (E__). A different factor was ____. The immediate trigger was ____. My judgement is ____ because ____. Rights: In Germany, ____ on ____, then ____ on ____, and ____ in ____ (E3/E4). This affected ____. Consequences: ____ harmed ____ (E5). This matters because ____. Why we remember: ____ (E6). A safe responsibility is ____. However, ____. Overall, my evidence supports ____ because ____.

Plan in any language. Keep the model covered until the adult retains your first attempt. Use your usual response mode and record help. No personal story, pledge or public answer is required.

Learning outcome: Structured evaluation of causes & consequences.

Assessing week | Route Independent

How do evidence and careful judgements help us evaluate the unit?

1 Select evidence and plan four sections. Compare the role of causes and identify the immediate trigger.

2 Explain the three rights steps with dates, place and effects. Evaluate consequences and remembrance, with reasons, responsibility and a limit.

3 Retain your first attempt, then compare the review model and respond to one next step. Keep your own judgement and label the supported revision.

Your own first attempt

In your book or a plain offline document, plan and write your own evaluation under four headings: causes of the conflict; rights removed step by step; consequences; why we remember. Weigh two causes and distinguish the trigger. Explain three dated rights steps in Germany and their effects. Explain harm and loss with dignity. Give a reason for remembrance, a safe responsibility and a limit. Use card codes and your own reasons. Keep the first attempt before the model and a later edit. No word target is set.

Assessing week | Route Aspire

How do evidence and careful judgements help us evaluate the unit?

1 Keep the same common finish. Weigh different causes without turning one factor into a complete explanation.

2 Explain the limits of a Germany-specific sequence and the difference between war, removal of rights and the Holocaust. Do not rank suffering.

3 Use a precise judgement about why remembrance matters and what it cannot do alone. After the first attempt, revise an overclaim and explain why.

Your own first attempt

In your book or a plain offline document, plan and write your own evaluation under four headings: causes of the conflict; rights removed step by step; consequences; why we remember. Weigh two causes and distinguish the trigger. Explain three dated rights steps in Germany and their effects. Explain harm and loss with dignity. Give a reason for remembrance, a safe responsibility and a limit. Use card codes and your own reasons. Keep the first attempt before the model and a later edit. No word target is set.
