RE learns about caring; this activity is not worship

## TA brief

### Adult support

1. Essential outcome: Listen to a story about caring for others. Plain objective: find care in a story.

2. Arrival 1–4: three baseline prior-idea checks then link to today; missed-learning recap after first try only.

3. Starter: Which person in the first picture might need help? One brief observation, no second question.

4. I Do: complete main source, three word meanings, distinct Model source and stepped model. Keep only useful vocabulary/model in books.

5. We Do: complete Class source and a pupil-owned guided response before reveal, recorded in the blank guided record.

6. You Do: Choose the adapted road story or the made-up club story. Listen to it again. Choose one caring act. Show it with a card, mark or words. Say how it helps the person in your chosen story. Use care, help and story in your words or marks. Review stays within the 15 minutes.

7. Support: Independent first; Supported then Choice only as needed; Aspire extension. I/S/C instruction is staff-only. All four separate routes have task, Help, blank record and Review; actual support recorded.

8. Adaptations: one-step instructions, visual/symbol support, model first, reduced writing with talk/point/draw/type options, pre-taught vocabulary, reader/scribe/overlay/extra processing time; private response, quiet space, pass and planned regulation/movement break. Return to one source card, then one step. Read the short story in three pauses; use role cards and complete picture descriptions; no injury imagery or medical role-play.

9. TA focus: use each stage's action/avoid/VF and held ladder. Teaching adult is the single designated capture adult. No cold calling; nobody is asked to read difficult text aloud. Preserve baseline and actual prompting; EHCP note adult-only.

10. Exit: fresh case and two questions per tier; no help/organiser/answers available. Pupil confidence 1–3 and separate staff prompt record. Original responses inform next lesson.

11. After teaching — leave blank: misconception [ ] / pupil response to feedback [ ] / next step and influence [ ] / Space or opt-out note [ ] / loop completion evidence [ ].

12. Preparation/evidence/cover: complete named source/word cards and materials above; Arrival/Exit/main-task answers identified in staff sections; no external material dependency. Same-day evidence — BUILD-RE-S1-W01: the teaching adult is the designated live-capture adult. Capture a pupil-arranged/pointed caring choice with an exactly scribed reason, or the chosen record, using a work-only photo, brief clip or one-line note. Record mode, actual source access, route, I/S/C, exact prompt and before/after-model status. Audience: this adult receives the whole response, names its change or reason back and checks it before tagging. Influence: use that response to select a next teaching step; record actual influence after teaching. Upload the selected item to the evidence app the same day in the 14:10–14:30 check-out slot, labelled BUILD-RE-S1-W01. E marks capture/upload, not closure. R requires both adult receipt and a shaped next step; a photo, a refusal or completion alone never earns R. The subject lead samples weekly; BUILD's daily expectation is not claimed met by a planned lesson.

RE learns about caring; this activity is not worship

## TA brief · continued

### Adult support · continued

KEEP: main-source access, short model, one guided attempt, genuine own response and both Exit checks. Omit Aspire extra work or repeated examples if needed; never omit the pupil-owned core or supply its answer.

Timeline: Opening 0; Arrival 00–05 KEEP; Starter 05–08; I Do 08–14 KEEP; We Do 14–22 KEEP; You Do 22–37 KEEP; Exit Ticket 37–40 KEEP. Total 40 minutes; no assessment timing flex used.

F — book task, targeted questioning and 2-question exit check. No observed success or completed evidence loop is claimed before teaching.

Educational RE: RE learns about caring; this activity is not worship. Reflection is optional and never worship. Where a source makes a faith claim use “some believers” or “this person”; model diversity within traditions and never rank beliefs. A story in a religious text is attributed as a story, not presented as a record of an observed event or a rule every believer follows.

No authentic sacred objects are used. Use replicas, protected learning resources, photographs, full picture descriptions or drawings instead; state respectful handling before any optional replica is touched. Distinguish a book, object or place from the faith itself. No real flame, worship, prayer, ritual or sacred-text recitation; no medical-treatment or injury enactment. Learning drawings are not authentic photographs.

No requirement to bring a personal object, state a belief, describe family/community experience, disclose a bereavement or explain a private mistake. Use third-person cases and a neutral community route. No pupil must apologise, forgive, reconcile or promise a real action. A person may retain boundaries, decline help or still feel upset. Reflection and quiet thinking are optional; a pass needs no book entry. Accept “depends” with a relevant reason, while checking harm, consent and the case facts.

No cold calling; nobody is asked to read difficult text aloud. Offer pointing before speech/writing, a symbol/word bank, 2–3 choices only where part of the task, drawing, exact scribing, verbal or witness-note responses, quiet space, reader, overlay and extra processing time. No compulsory pair work. Never question a pupil publicly about an adaptation.

Source status: W1 main story is a short original paraphrase adapted from a verified Christian text; its original reference and adaptation record are in the separate provenance file, not copied as a classroom web link. Every model, class case, independent case in later weeks and fresh Exit source is expressly authored third-person fiction. No invented case is scripture, testimony or a universal faith claim. All text/picture descriptions needed for the core task are supplied; no live lookup or extra image is needed.

Release: keep recall strips, words, organiser and new content covered during the first Arrival try. Show only the Starter observation needed at that stage. Read main source after Arrival and before modelling; model only at I Do, class source at We Do, chosen task cards at You Do. Show the full worked model long enough, then remove it and guided answers before You Do. Fresh Exit source stays hidden until Exit Ticket; close Word help, organiser, models and all help/answer panels then.

RE learns about caring; this activity is not worship

## TA brief · continued

### Adult support · continued

One Arrival tier, one Exit tier and one You Do route per pupil. Independent is first; add Supported or Choice only as needed. Aspire is extension, not a fourth support level. Before lowering demand reduce visual load, unnecessary reading/copying and repetition, then add structure/prompts; lower conceptual demand only if still needed. Keep each route on its own pupil page.

Staff I/S/C instruction: record actual I, S or C and the exact help in staff records; leave the pupil's I · S · C box empty until an authorised staff mark. "record the level of support, not just success". Independent = no content prompt; With prompt = stem/choice/reminder used; Not yet = adult supplied most of the content. Preserve baseline and prompted responses separately. Aspire does not itself establish independence.

Adult-only EHCP note: possible opportunities include source choice for cognition/learning, communicating a response, an agreed pause/return for SEMH, and an accessible sensory/physical mode. Observe only the relevant agreed individual outcome. Never infer diagnosis or progress from completion.

Space: check readiness, offer a planned brief regulation/movement break and quiet route. Printed return point is one source card, then one step. Log opt-out in Evaluation after teaching as Space evidence, not failure or R.

Same-day evidence — BUILD-RE-S1-W01: the teaching adult is the designated live-capture adult. Capture a pupil-arranged/pointed caring choice with an exactly scribed reason, or the chosen record, using a work-only photo, brief clip or one-line note. Record mode, actual source access, route, I/S/C, exact prompt and before/after-model status. Audience: this adult receives the whole response, names its change or reason back and checks it before tagging. Influence: use that response to select a next teaching step; record actual influence after teaching. Upload the selected item to the evidence app the same day in the 14:10–14:30 check-out slot, labelled BUILD-RE-S1-W01. E marks capture/upload, not closure. R requires both adult receipt and a shaped next step; a photo, a refusal or completion alone never earns R. The subject lead samples weekly; BUILD's daily expectation is not claimed met by a planned lesson.

Evidence record: lesson [ ] / stage [ ] / route [ ] / I-S-C [ ] / mode [ ] / source access [ ] / exact prompt and ladder step [ ] / pupil response [ ] / VF or NS [ ] / received response [ ] / named-back change [ ] / next teaching step [ ] / R justified [ ] / agreed outcome observed [ ]. Identities belong only in the authorised private record; no names or initials here.

BUILD DIRECTIONS — ADULT ONLY

Printed stages: Arrival → Starter → I Do → We Do → You Do → Exit Ticket. Opening is 0 minutes, outside the stages. Default timing 5/3/6/8/15/3 = 40 minutes. Reveal one short instruction at a time; show only current-stage needs. Book work and small source strips, not copying a board or a central worksheet.

Cue fills and fixed meaning: instruction yellow #FFF1BB; scaffold blue #E4EFF9; stretch/Aspire green #E4F2E6; success criteria orange #FFE4C8. High Contrast takes precedence. House topic tints are separate. At build, give every actual picture its pupil-readable description and declare every colour as picture #hex: caption words; no rendered palette measurements are claimed here.

RE learns about caring; this activity is not worship

## TA brief · continued

### Adult support · continued

Pupil print at least 14 pt, instructions larger than explanations, clear sans-serif, spacing and overlay-safe pages. Staff body may follow the packet's staff exception. Leave QR/KIT-1, source_page_sha256 and version fields empty for intake. No calendar dates; blank Date line only.

Every later pupil page, including each Arrival/Exit sheet, source card page, organiser, Word page and each You Do route page, repeats the accurate line "RE learns about caring; this activity is not worship". Staff pages retain the educational/non-devotional care note. No exception for separate prints.

Every slide, including Opening, repeats the exact pupil objective "To be able to… find care in a story." in its footer, plus its stage minutes and blank version line. The footer never replaces the objective with the version.

### Arrival · 5 min

Adult note: Week 1 baseline: probe prior ideas, with no presumed previous teaching or attendance. Item 4 links to today and comes last. After first try, offer a 60-second recap if prior learning was missed; retain first and later responses separately. No new teaching at Arrival.

Adult note: TA action — Help locate the first question and begin within about two minutes. Avoid — Do not answer the four questions or open recall resources before first try.

Adult note: LOOP — Space: offer readiness check, pause or pass. Feedback / VF script: "You made a first try. Show me what you want to check." Voice: receive the pupil's own sign, mark, word or directed choice. Audience: the teaching adult listens/looks start to finish and names the response back. Influence: Choose whether a brief missed-learning recap is needed. R only after this received response has shaped the next step; planned evidence is not claimed completed.

### Starter · 3 min

Adult note: One question only, using the picture/source observation indicated. Do not add a second prompt or show a full task answer. Answer guidance: The hurt traveller; accept pointing, a brief word or pass. This is one observation, not the full caring-act explanation.

Adult note: TA action — Read the one question and allow quiet/private think time. Avoid — Do not add a second question or require public speech.

Adult note: LOOP — Space: offer readiness check, pause or pass. Feedback / VF script: "You chose one detail. I heard your choice." Voice: receive the pupil's own sign, mark, word or directed choice. Audience: the teaching adult listens/looks start to finish and names the response back. Influence: Adjust the pace and source access for the model. R only after this received response has shaped the next step; planned evidence is not claimed completed.

RE learns about caring; this activity is not worship

## TA brief · continued

### I Do · 6 min

Adult note: Read the main story/case in short chunks; ensure pupils have heard/accessed it before the model. Use two minutes for words, two for main source and two for the distinct Model source and stepped model. The source strips remain available; remove the full worked answer before independent application. Adult modelling is not pupil evidence.

Adult note: TA action — Support attention to one current model step and useful words. Avoid — Do not give a parallel explanation or ask for slide copying.

Adult note: LOOP — Space: offer readiness check, pause or pass. Feedback / VF script: “This step uses a case detail. You can point to it.” Voice: receive the pupil’s own sign, mark, word or directed choice. Audience: the teaching adult listens/looks start to finish and names the response back. Influence: Check access before guided practice. R only after this received response has shaped the next step; planned evidence is not claimed completed.

### We Do · 8 min

Adult note: Use the complete Class source. Two minutes for the source, four for each willing pupil’s own contribution, two to check. Use volunteers, directed choice or private checking, never cold calling. Reveal only after the own try. Guided answer: Helper asks which book and/or passes the chosen book, helping the person access the wanted book. Do not infer needs or feelings beyond the story.

Adult note: TA action — Invite a volunteered or private contribution and record the pupil’s own choice before reveal. Avoid — Do not reveal a full answer before the pupil’s try.

Adult note: LOOP — Space: offer readiness check, pause or pass. Feedback / VF script: “Your choice uses this detail. Check this one part.” Voice: receive the pupil’s own sign, mark, word or directed choice. Audience: the teaching adult listens/looks start to finish and names the response back. Influence: Choose the least support needed for the own attempt. R only after this received response has shaped the next step; planned evidence is not claimed completed.

### You Do · 15 min

Adult note: Two minutes to select route/source access, eleven for the task and two for Review and improve. Offer book work, arrangement/pointing, symbols, drawing or exact scribe; the blank record is optional, so no task is worksheet-only. Record any Help actually used. Live verbal feedback is the default; no grid of written comments.

Adult note: TA action — Offer independence first; use the held ladder only if needed and fade. Avoid — Do not replace the pupil’s idea or mark prompted work independent.

Adult note: LOOP — Space: offer readiness check, pause or pass. Feedback / VF script: “You used this detail. Try one change, or tell me why it should stay.” Voice: receive the pupil’s own sign, mark, word or directed choice. Audience: the teaching adult listens/looks start to finish and names the response back. Influence: Receive the review and select one next teaching step. R only after this received response has shaped the next step; planned evidence is not claimed completed.

RE learns about caring; this activity is not worship

## TA brief · continued

### Exit Ticket · 3 min

Adult note: No hints, clues, sentence starters or word-card pointing. Give the full fresh source as text/read-aloud/description, close help and organiser, and keep answers hidden. Spend about one minute per response and the remaining time on confidence. Reading access is recorded separately from a content prompt. Do not change an answer.

Adult note: Prompting record: independent / with prompt / not yet [ ]; exact prompt [ ]; source-access mode [ ]. Preserve the baseline; adult-supplied content is not pupil independence.

Adult note: TA action — Offer complete fresh-source access and record an attempt or pass, plus actual prompting. Avoid — Never give a content clue or change an answer; close reference/help panels.

Adult note: LOOP — Space: offer readiness check, pause or pass. Feedback / VF script: “Thank you for your own response. It helps us plan.” Voice: receive the pupil’s own sign, mark, word or directed choice. Audience: the teaching adult listens/looks start to finish and names the response back. Influence: Use the original checks to plan the next lesson. R only after this received response has shaped the next step; planned evidence is not claimed completed.

### Prompt ladder for adults

1. Point to the relevant place / instruction.
2. Ask one short question: "What is it asking you to find?"
3. Rephrase the instruction in simpler language.
4. Provide a scaffold or limited choice.
5. Model the first step only, then return the task to the pupil.
