RE and Worldviews · GROW · Spring 1 · Week 2 · GROW-RE-S1-W02 · Date _____

How does one faith account link hardship and hope?

Today I can… ☐ I can identify an idea of hope in the source. ☐ I can explain a possible caring response. ☐ I can avoid a promise that all pain will stop.

Feedback: ☐ VF ☐ WS ☐ I ☐ NS ☐ E ☐ R ☐ [//] ☐ [?] _____

RE learns about beliefs, change and resilience; this activity is not worship

STAFF ANSWERS

Arrival · Supported

1. A possible response or action.
2. Ask what is needed, check a safe task, seek help or make a new plan.
3. No; different people can make the same choice.
4. Yes; accept a sensible prior idea without asking about personal hardship.

Arrival · Standard

1. A belief/value can give a reason for choosing a response.
2. Check needs, seek safe help, plan a repair only when safe or choose a new plan.
3. The case did not state a belief and more than one worldview can support care.
4. Hope is a wish or trust in possible good, not evidence that the difficulty is over.

Arrival · Stretch

1. E.g. source B's reason/care supports checking facts and needs; A's hope/care can support asking what help is needed.
2. A safe plan offers an action within the group's control, while not promising the whole problem is solved.
3. A stated view or other direct evidence; never infer it from the act or appearance.
4. Hope concerns what may be possible; a known outcome needs evidence.

Exit · Supported

1. Hope linked to Christian belief in new life/rising from death.
2. Seeking a safe space or checking needs fits its call to kindness/care.

Exit · Standard

1. The account links belief in new life with renewed hope.
2. Hope does not remove the practical need, and the source calls for care.

Exit · Stretch

1. A clear link between the source belief/hope and caring action in the case.
2. It offers a belief-based reason for hope, not proof that the room/problem is resolved.

STAFF ANSWERS · continued

Starter

Answer (adult): No. Hope and a known outcome are different.

We Do

Answer (adult): Checking another room or asking what help is needed combines hope with action. It is a classroom application of the source's care theme, not a promised outcome, a command to pray, or proof of the helper's own faith.

You do routes

Route guidance: Report A accurately as one Christian source, with hope tied to its belief and care theme. Require a reasoned application and a limit. Do not assess personal agreement, devotion or disclosure. Reject suffering-as-weak-faith blame and automatic-cure claims.

Supported and Choice retain the same essential outcome. Record only pupil-selected content. A word/phrase may show the reason; an adult-selected answer does not. Aspire is not automatic independent evidence. An accurate alternative judgement with evidence may be accepted where the question permits it.

Review evidence: keep the original response and the pupil's own edit or stated reason to retain it. Use R only after the adult receives it, names the change back and records its effect on the next step. The evidence artefact is short faith-source explanation with a caring application and limit.
