Weekly plan notes

Assessment and sources

Formative. More than one source means at least two prepared cards per occupation. Three contrasting cards per occupation are supplied. All six are invented teaching texts; they are not independent verification of real jobs. Generic settings replace real locations. Preserve exact outcome and log the practice boundary.

Profile fields

Duties, hours, salary range, location/work setting, entry, progression and working conditions. Record the source label for each claim or an explicit gap. Do not infer an exact entry qualification, shift start time or guaranteed next role.

Where this leads

This helps me compare work using evidence and ask useful questions before making a career choice.

Planned support

Chunked cards, separate model, vocabulary, structured profile and private rehearsal. Both occupations and more than one source each remain the target. Use usual aids, extra processing time and a regulation break. Plan in any language. No personal pay or family-work disclosure required.

Evidence and response

Keep first thinking, source labels, support and any change. Offer to the Communication portfolio. E only for actual work. One NS; R only after Voice, Audience and learner response in the same colour, on the same page or usual mode.
