Weekly plan notes

Mode and encounter status

Visitor: allow accessible learner questions, answers and follow-up. Recorded talk: pause, record and keep provider replies pending until genuine interaction occurs. No visitor/recording: use the full A/B profile simulation. Simulation and recording alone are not a completed real provider encounter.

Source timing

I14 specifies a reasonable encounter window during the school day, not the earlier fixed 5/7/10/13/5 sequence. The 5/5/20/7/3 classroom plan is illustrative. Extend or separate an actual event as needed; prepare before it and evaluate immediately after. Record actual time and staff entitlement checks separately.

Where this leads

This helps me ask useful questions before a training choice and decide what I need to check next.

Support and privacy

Question menu, separate model, profiles, vocabulary, private rehearsal, captions/transcript and normal aids. Plan in any language. An adult may relay the learner's own question. No grades, diagnosis, family work or income disclosure. A hypothetical need remains hypothetical evidence.

Evidence and response

Keep actual question/response status, recruitment/entry facts and gaps, own need, judgement and next question. Retain support and revision. Offer to the Communication portfolio. E for banked evidence; R after Voice, Audience, NS and response in the same colour, on the same page or usual mode.

Thread tags: SMSC S/So (M/C: none); British Values IL/MR (D/RL/T: none).

Week 6 mixed formative/summative source marker. Week 7 assessing. No clock time or actual visitor attendance is asserted.
