Words for comparing settlement samples

Tuesday 8 December 2026 | P2 | 40 minutes | Year A

White paper version | Read quietly. Point, write, type or use a scribe. No reading aloud is required.

Evidence words

Sample: a small set chosen to study.
Plot: one unit of land recorded in this model.
Primary code: the one main use recorded for a plot.
Residential: mainly used for homes.
Services: uses that serve people.
Workshop: a place for making or repairing.
Open space: an area recorded as open land.

Comparison words

Similarity: a feature that is alike.
Contrast: a difference in the same feature.
Proportion: a part compared with its whole.
Percentage point: the unit for subtracting one percentage from another.
Description: what the evidence shows.
Tentative explanation: a possible reason that needs checking.
Limitation: something the evidence cannot establish.
Snapshot: a record of a limited time and sample.

Map and source words

Inland: away from the coast.
Coastal: next to the coast.
Schematic: a simplified display, not an exact real map.
Source code: a label showing where a claim came from.
Representative: able to reflect a wider group fairly. One short route is not enough to assume this.

Words for my final note

Both samples have __. A has __ and B has __. Source __ shows __. One possible reason is __. The evidence is limited because __. We need __ to check it.
FINISH: one similarity and one contrast, with numbers, sources and a limit. Point, write or speak quietly; use your usual aid. No forced reading aloud or cold calling.
