Teacher and cover planner

Safe choices and asking for help

Wednesday 24 March 2027 · P3 · 40 minutes · Year A

GROW PSHE · Spring 2 Week 5 · up to five learners · assessing week

Original lesson grouping: Choices and help. Five teaching weeks run 22 February to 25 March 2027. The last week ends on Thursday.

Thread tags: SMSC S/So; British Values IL/MR. Other tags not claimed.

Exact lesson outcomes

Practise help-seeking and decision-making in scenarios.

Relationships & citizenship task; bank evidence.

GROW Weekly Spring rows 74 and 75 C74 and C75, checked verbatim. The owner combines both outcomes into Week 5 on Wednesday 24 March 2027 P3. This is the assessing week.

Purpose

For all three made-up scenes, give a safe choice and a reason, a safe action or phrase, and a private trusted-adult help route. Tell first if unsafe or unsure. Improve one response after feedback. All work concerns invented mild scenes. No real concern, account or personal relationship is requested.

Cover preparation

Read Staff Answers and the three cases. Prepare books, printed Support Cards, glossary and usual aids. Offer Type instead. Confirm the private help signal, available adult and supervised pause route before teaching. Do not create pressure, a conflict or a real reporting task.

Forty minute sequence

Phase	Time	Action
Arrival and starter	0–5	Settle; agree help and supervised pause. Recall a safe choice or explain its reason.
Input	5–10	Read both exact outcomes. Explain decide, act and tell, with tell-first safety rule.
Model and guided work	10–17	Model one small part of each scene. Match a step or improve unsafe advice.
Private hinge and choice	17–22	Check tell-first/help without proof. Choose a response format and usual mode.
Three scene task	22–34	A22–26, B26–30, C30–34; map/list or three short notes. All three offered.
Review	34–38	Check all responses; one NS and actual own reply. Staff note current/prior evidence.
Private exit	38–40	Explain a help route or repair a myth. Close with support.

Total 40 minutes, including processing and pauses. All three scenes fit the same 12 minute task period: A 22–26, B 26–30, C 30–34. Choose a format, not a scene.

Teaching and response routes

Starter choices

Choose a safe next step for a learner waiting for a turn. Or explain why asking staff can be a safe first choice. Use the invented learner only.

Input

A decision is a choice about what to do. A safe choice respects people and avoids adding harm. Help-seeking means asking a trusted adult for support. A person can ask when unsure and does not need proof first. Decide, act and tell are prompts, not a fixed order. If unsafe or unsure, tell a trusted adult first. There is no need to try a phrase, resolve a problem or collect proof before help. Staff use the safeguarding lead through school procedure.

Model

A fair turn plan can let both use the shape. I would like us to agree a turn. They could listen and use a swap cue, or ask staff to help. Ask trusted school staff for help if they cannot agree or feel unsure. Can we talk in private? We need help with a fair turn plan. Model one short part of B and C too: pause before a share if permission is unclear; ask to hear each idea and use normal aids. Keep all scenes mild and offline.

Guided choices

Match asking a trusted adult to a safe response. Or repair You must act and collect proof before telling. State that telling first is valid when unsafe or unsure. Fade answer cues while retaining the model and usual aids.

Two equal formats

Make a decide, act and tell map or list for all THREE scenes. Write a short advice note for each of the THREE scenes. Choose a response format, not one scene. Both formats cover all three scenes: a safe choice with a reason, a safe action or phrase, and a trusted-adult help route. When unsafe or unsure, telling first is always valid.

Supported

Use both the routine and model. Work through each scene in short parts. Choose between two safe lines if needed. Point, type, use a usual aid or exact scribe/readback. Keep normal access apart from content cues.

Independent

Use usual aids and the visible model. For all three scenes, explain a safe choice, action or phrase, and private help route. Explain when telling first is best.

Aspire

For each scene compare two safe options. Explain a reason and a fallback if the first plan or adult route does not help. Do not collect proof, confront harm or add personal detail.

Evidence limits

Retain actual responses for all offered scenes. No performance, real device, live report, sharing, copying private content, confrontation or public story is required. A pass is not observed. One task cannot prove lasting conduct or every half-term outcome.

Where this leads

This helps me make fair choices, seek support and explain a safe next step in learning, groups and future work.

Task aids and access

Starter

Words: choice · fair · safe · help

Start: A safe choice could be…

Model: Ask staff to help plan fair turns.

Model

Words: decide · act · tell · reason

Start: They could… because…

Model: They could pause before sharing because permission is not clear.

Private hinge

Words: unsure · first · trusted adult

Start: If unsure…

Model: Tell a trusted adult first.

Scene A

Words: turn · listen · swap · help

Start: I would like…

Model: I would like us to agree a turn.

Scenes B and C

Words: permission · choice · voice · fair

Start: A safer request is…

Model: Can we hear each idea?

Review

Words: check · reason · next step

Start: My next step…

Model: Add which trusted adult role could help.

Private exit

Words: tell · trusted adult · support

Start: If help is not enough…

Model: Ask another trusted adult through the agreed route.

Response modes

Books are the first route. Evidence Sheet page 2 offers Type instead for either format and all three scenes. Point, draw, choose a line, use a usual aid or exact scribe. Read back quietly and allow correction. Keep normal access and language aids. Plan in any language. No public questioning.

Prompt ladder

Point to the place or instruction. Ask a short private question. Rephrase. Offer a scaffold or choice. Model the first step only, then return the task. Allow time. Record answer cues apart from usual access.

Checks and planned access

Main private hinge

A learner is unsure whether a group request is safe. What fits the routine? A They must act before asking anyone. B They can tell a trusted adult first. C They need to collect proof first. D They should keep the concern secret. Check privately. B or safe equivalent with a reason: proceed. A makes the prompts a rigid order; C wrongly requires proof; D accepts secrecy. Re-model and use parallel A. A pass or no response is not observed, never a failure label.

Parallel check

The first adult is busy. A Ask another trusted adult through the agreed route. B Stop asking and deal with the concern alone. Correct A. The learner can ask another trusted adult through the agreed route. A pass is unobserved.

Questions in private

F Who could the story learner ask? M Why can telling come first? H What if the first adult or plan does not help? Use words, a note, pointing or usual aid. No public questioning.

Misconceptions

Decide act tell is not a fixed order. Help can come before choosing or acting. A group request does not make a share right. Fair participation includes hearing each learner and keeping usual aids. No one must collect proof, confront harm or solve it alone.

Planned adaptations

Cognition and Learning: short scene parts, visible model and two safe line choices. Communication and Interaction: wait time, usual aid, typing or exact scribe and readback. SEMH: predictable fiction, private response, pass and supervised pause. Sensory and Physical: clear print and usual position; no device or practical demands. EAL: explain safe, fair and help; plan in any language.

TA focus

Input: model help as a possible first step. Guided work: match a safe response or repair advice. Task: offer all three scenes, check usual mode and actual answer cues, acknowledge pause signals and retain partial work. Do not fill in missing responses or press for personal details.

Review and exit

Use shared checks or repair You must collect proof first. Give one precise NS and allow the learner actual reply. Exit may explain another trusted-adult route. Learning self-check: Ready to explain / With a prompt / Need another example. This does not rate wellbeing, conduct or safety.

Assessment cover and private support

Six outcome evidence review

This is the assessing week. The six-outcome tick-and-comment grid starts blank and spans rows 70 to 75 across five teaching weeks. Use Week 5a and Week 5b for the two final outcomes. Record actual current or prior work references, context, usual access and content prompts. Tick observed, more learning needed or not observed honestly, and explain gaps or the next chance. A pass is not observed. One fictional task cannot prove every outcome or lasting behaviour. The grid is not criteria for the unit award. Staff check actual requirements and evidence sufficiency before offering evidence. No automatic banking or award follows from completion.

Calendar and source adaptation

Owner calendar decision: Spring 2 has five teaching weeks, Monday 22 February to Thursday 25 March 2027. The source labels row 74 Spr2·W5 and row 75 Spr2·W6. The owner combines both exact row outcomes into one assessing lesson on Wednesday 24 March 2027 P3, Week 5. Row 75 is not treated as a sixth teaching week and no Week 6 lesson is built.

Feedback and portfolio

Retain actual fictional work and the first response. Record usual access separately from adult content prompts. Give one NS and allow an actual reply in the same colour, on the same page or usual mode. E only for actual saved evidence. R only after Voice, Audience, one NS and the actual pupil response. Offer to the Communication portfolio; staff confirm mapping. Do not collect personal cards or real concerns in learning records.

Non specialist cover

Use only the supplied fictional scenes. If display or typing fails, read cards and use a book, aid or exact scribe. Never open real accounts, ask for screenshots or copied private content, force a phrase or confrontation, or require an action before help. Keep current or prior actual work references. Do not invent criteria for the unit award or mark every outcome from completion.

Private response

All tasks use invented third-person scenes. No real relationship, health, family, account, password or incident is requested. Pass and the agreed pause are valid. Any optional personal card stays with the pupil and is not collected, photographed, displayed or compared. Only fictional learning is kept as evidence.

Private help

Ask a trusted adult or school staff privately. Say Can we talk in private? I need help with a choice or concern. Use words, a note, HELP or a usual aid. If the first adult is busy or help is not enough, ask another trusted adult. For an urgent safety concern, get adult help at once through the school route.

Discreet step out

Before teaching, agree a discreet HELP or PAUSE signal, available adult and familiar supervised place and route. Staff acknowledge it quietly and keep adult support. No public reason is needed. Offer a neutral task, supported return or private catch-up. No learner leaves alone.

Safeguarding

Any disclosure goes to the safeguarding lead through school procedure. Listen calmly, reassure, do not probe, investigate or promise secrecy. Follow urgent school procedures for immediate concerns. Keep real concerns and identifying details in the separate safeguarding record, not learning evidence. A pupil unable to identify a trusted adult is supported privately, not pressed.
