

Teacher card

Our festivals evidence display / BUILD_A2_W07

Outcome: Make a festivals display and gather UAS evidence.

Evidence to retain: S: half-term review; relevant source skill check; retain UAS evidence.

Forty minute route

Arrival 4 min; starter 3; model 6; shared task 7; check 2; independent 12; review 3; exit 3.
Pause time is flexible.

Preparation

Choose one independent route. Print the evidence and shared cards, required visual or data sheet, route worksheet and exit. The organiser is one separate A4 page. Keep answers with staff.

Learn about observances without asking anyone to practise a religion. Use unlit objects. Dates and family practices vary.

Access and regulation

Use one-step instructions, symbols and a model first. Offer talk, point, draw, type or write. Reduce the number of choices; extend by asking for a reason or a second example. Adults prompt the first response then fade support.

Offer a predictable start, private response and agreed pause. No cold calling or forced personal disclosure. Rejoin at one clearly named next step. Keep teen-appropriate examples and the same learning goal across response modes.

Use sensitive content warnings where relevant. Do not ask for family details or personal experiences.

Assessment

Use a different example for shared practice. During independent assessment, keep the agreed reader, scribe, glossary or response mode, but withdraw answer models and record prompts separately.

UAS: no approved unit code is supplied. Match the learner's evidence to the centre-selected unit and exact criteria before submission. This pack makes no automatic award claim.

Model and answers

Read these pages before teaching. Hide the model during independent assessment.

Question: Annotate one item for a festivals display.

Evidence: H Hanukkah: Hanukkah is a Jewish festival lasting eight nights. Lights recall the Temple's rededication and the traditional account of oil lasting eight days. A hanukkah has eight festival lights and a helper light.

Think aloud: My comparison shows that both celebrations use light. Their stories and meanings differ.

Check: Can card H prove identical practice in every household? No. The source explains a perspective and recognises variation.

Arrival answers

1. Yes. It can help a pupil access the same activity.
2. A special period of celebration or remembrance
3. It explains what the work shows about learning.
4. No. The source explains a perspective and recognises variation.

Shared activity reasoning

Exit responses

What does an annotation add to a display? It explains what the work shows about learning.

Can card H prove identical practice in every household? No. The source explains a perspective and recognises variation.

Teaching and evidence record

Supplied scheme of work teaching sequence: Select and explain work from across the unit; build an annotated display and review what each example shows.

Look for

S: half-term review; relevant source skill check; retain UAS evidence.

Accept accurate equivalents, including speech or exact scribing. Check the concept and use of evidence rather than length or handwriting. Record access support separately from content prompting.

BUILD: a concrete example with a reason or demonstrated action. GROW: explain or compare with a relevant detail. LAUNCH: connect evidence and reasoning; use a limitation when the outcome requires it. Keep RE responses non-GCSE.

Media

Original captioned teaching model made for this pack. It demonstrates the supplied reasoning; it is not historical footage, survivor testimony or a documentary. The full transcript and factual source credits are included.

Use manual steps for a calm pace. The silent MP4 has visible captions and a matching text transcript. External archive media is optional and should be previewed before class.
