

Teacher card

Countries continents and oceans / GROW_A2_W01

Outcome: Locate countries continents and oceans using maps and atlases.

Evidence to retain: F: map-skills check and independent location/pattern question.

Forty minute route

Arrival 4 min; starter 3; model 6; shared task 7; check 2; independent 12; review 3; exit 3.
Pause time is flexible.

Preparation

Choose one independent route. Print the evidence and shared cards, required visual or data sheet, route worksheet and exit. The organiser is one separate A4 page. Keep answers with staff.

World outlines use Natural Earth public-domain data. Place markers are reference locations, not boundaries of communities.

Access and regulation

Chunk sources and tasks; pre-teach vocabulary with images. Offer sentence stems, organisers, oral rehearsal and typing. Start with one modelled example; extend through a second source, comparison or supported judgement. Check the learner can begin within two minutes, then fade prompts.

Offer a predictable start, private response and agreed pause. No cold calling or forced personal disclosure. Rejoin at one clearly named next step. Keep teen-appropriate examples and the same learning goal across response modes.

Use sensitive content warnings where relevant. Do not ask for family details or personal experiences.

Assessment

Use questioning and the exit response to decide the next step. Record the learner's individual contribution and the access support used.

UAS: no approved unit code is supplied. Match the learner's evidence to the centre-selected unit and exact criteria before submission. This pack makes no automatic award claim.

Model and answers

Read these pages before teaching. Hide the model during independent assessment.

Question: Which of the three countries lies beside the Pacific?

Evidence: B India and Japan: India and Japan are in Asia. India borders the Indian Ocean; Japan is an island country beside the Pacific Ocean.

Think aloud: Japan.

Check: What changes when a map shows a much larger area? It shows less local detail at the smaller scale.

Arrival answers

1. A large land region
2. A large land region
3. Japan.
4. It shows less local detail at the smaller scale.

Shared activity reasoning

Exit responses

Which of the three countries lies beside the Pacific? Japan.

What changes when a map shows a much larger area? It shows less local detail at the smaller scale.

Teaching and evidence record

Supplied scheme of work teaching sequence: Model atlas use; practise locating features and short location questions. Start with a simplified map, then add a challenge layer.

Look for

F: map-skills check and independent location/pattern question.

Accept accurate equivalents, including speech or exact scribing. Check the concept and use of evidence rather than length or handwriting. Record access support separately from content prompting.

BUILD: a concrete example with a reason or demonstrated action. GROW: explain or compare with a relevant detail. LAUNCH: connect evidence and reasoning; use a limitation when the outcome requires it. Keep RE responses non-GCSE.

Media

Original captioned teaching model made for this pack. It demonstrates the supplied reasoning; it is not historical footage, survivor testimony or a documentary. The full transcript and factual source credits are included.

Use manual steps for a calm pace. The silent MP4 has visible captions and a matching text transcript. External archive media is optional and should be previewed before class.
