

Teacher card

Connections across the world / GROW_A2_W03

Outcome: Describe how communities are connected across the world.

Evidence to retain: F: explanation and two exit questions.

Forty minute route

Arrival 4 min; starter 3; model 6; shared task 7; check 2; independent 12; review 3; exit 3.
Pause time is flexible.

Preparation

Choose one independent route. Print the evidence and shared cards, required visual or data sheet, route worksheet and exit. The organiser is one separate A4 page. Keep answers with staff.

World outlines use Natural Earth public-domain data. Place markers are reference locations, not boundaries of communities.

Access and regulation

Chunk sources and tasks; pre-teach vocabulary with images. Offer sentence stems, organisers, oral rehearsal and typing. Start with one modelled example; extend through a second source, comparison or supported judgement. Check the learner can begin within two minutes, then fade prompts.

Offer a predictable start, private response and agreed pause. No cold calling or forced personal disclosure. Rejoin at one clearly named next step. Keep teen-appropriate examples and the same learning goal across response modes.

Use sensitive content warnings where relevant. Do not ask for family details or personal experiences.

Assessment

Use questioning and the exit response to decide the next step. Record the learner's individual contribution and the access support used.

UAS: no approved unit code is supplied. Match the learner's evidence to the centre-selected unit and exact criteria before submission. This pack makes no automatic award claim.

Model and answers

Read these pages before teaching. Hide the model during independent assessment.

Question: Can communities connect without people travelling?

Evidence: C A community link: Fictional case: a Middlesbrough community group shares festival greetings with a partner group in Mumbai. The link can involve people and communication without a physical journey.

Think aloud: Yes, through messages or shared online activity.

Check: Does one example describe everyone in either place? No.

Arrival answers

1. 1122.
2. A large land region
3. Yes, through messages or shared online activity.
4. No.

Shared activity reasoning

1. Middlesbrough group — Place. This is one end of the connection.
2. Shared greetings — Link. This is the communication in the fictional account.
3. Mumbai group — Place. This is the other end of the connection.

Exit responses

Can communities connect without people travelling? Yes, through messages or shared online activity.

Does one example describe everyone in either place? No.

Teaching and evidence record

Supplied scheme of work teaching sequence: Build a shared connection map from concrete examples. Independently explain one link using a visual and evidence.

Look for

F: explanation and two exit questions.

Accept accurate equivalents, including speech or exact scribing. Check the concept and use of evidence rather than length or handwriting. Record access support separately from content prompting.

BUILD: a concrete example with a reason or demonstrated action. GROW: explain or compare with a relevant detail. LAUNCH: connect evidence and reasoning; use a limitation when the outcome requires it. Keep RE responses non-GCSE.

Media

Original captioned teaching model made for this pack. It demonstrates the supplied reasoning; it is not historical footage, survivor testimony or a documentary. The full transcript and factual source credits are included.

Use manual steps for a calm pace. The silent MP4 has visible captions and a matching text transcript. External archive media is optional and should be previewed before class.

Source credits
