

Arrival choices

You can begin without previous learning. Word help: settlement means a place where people live.

Start with 1 and 2. Try 3 and 4 when ready. Reading and exact scribing are available.

1 What does settlement mean?

Support: Use the reminder strip or talk it through with an adult.

My response

2 Which meaning fits settlement?

Support: Choose: A place where people live OR Growth in the share of people living in urban places.

My response

3 What area does a four-figure reference locate?

Support: Use the model evidence anchor grid or read one relevant card together.

My response

4 Why consult the actual map key?

Support: Give a reason when ready.

My response

Stretch: use a precise example or explain which detail supports your answer.

Evidence cards

Read, point or listen. Keep the source label with any detail you use.

A Local reference points

The Middlesbrough railway station and the Transporter Bridge are reference points on our digital map. Toggle layers to examine their positions. Town Hall lies beyond this map's southern boundary.

Source: OpenStreetMap place references; approximate labelled coordinates

Limit: These points alone cannot show population density or prove why development happened.

B Reasons places grow

Work, transport and services can attract people and businesses. A growing town may need more homes and infrastructure. Population growth can also occur within existing settlements.

Source: Authored geographical explanation

Limit: A reason is a hypothesis until tested against evidence for a particular place.

C Practice land-use sample

Fictional practice tally: shops 8, homes 12, public services 4, green spaces 6. This is training data only. Replace it with your dated observations for the fieldwork enquiry.

Source: Authored classroom case

Limit: This example does not describe every person or place.

D Contrasting reference place

Compare a small centre such as Helmsley with central Middlesbrough at comparable map scales. Record the area, source and date used.

Source: OpenStreetMap linked views

Limit: One sampled street does not represent a whole settlement.

Visual resource

Use this visual with the evidence cards and enquiry questions.

A detail I noticed and what it helps me explain

Shared investigation

1. Compare the practice-map key with the linked OS symbol guide.
2. Read eastings before northings and practise four-figure references.

Work with a partner or adult, or use your own table. One person suggests; the other checks the evidence. Swap after one turn. Passing is allowed.

Use the evidence cards and any visual sheet. Follow the two shared steps above, then record one decision.

Our explanation

Support: Use the glossary and one chunk of evidence. Plan the claim and supporting detail before explaining.

Further challenge: Give a six-figure location within a square and explain the difference in precision.

Supported independent task

Complete this route only. Use maps OS symbols and grid references.

1. Identify the genuine OS abbreviations Sch, PO and FB using the supplied key.
2. Locate three features on the separate practice map using grid references and direction.
3. Answer one independent location or pattern question.

Support: Use the glossary and one chunk of evidence. Plan the claim and supporting detail before explaining. Complete the organiser one space at a time. The key identifies _____. Easting _____ then northing _____ gives _____.

Places and symbols or grid references

Location or direction statement

Pattern using the map evidence

What this map does not show

An adult may read or scribe your exact response. They should not choose the answer.

Standard independent task

Complete this route only. Use maps OS symbols and grid references.

1. Identify the genuine OS abbreviations Sch, PO and FB using the supplied key.
2. Locate three features on the separate practice map using grid references and direction.
3. Answer one independent location or pattern question.

Support: The key identifies _____. Easting _____ then northing _____ gives _____.

Places and symbols or grid references

Location or direction statement

Pattern using the map evidence

What this map does not show

Check the required evidence and revise one detail.

Stretch independent task

Complete this route only. Use maps OS symbols and grid references.

1. Identify the genuine OS abbreviations Sch, PO and FB using the supplied key.
2. Locate three features on the separate practice map using grid references and direction.
3. Answer one independent location or pattern question.
4. Give a six-figure location within a square and explain the difference in precision.

Support: Choose the evidence independently. Use the frame only if it helps.

Places and symbols or grid references

Location or direction statement

Pattern using the map evidence

What this map does not show

Give a six-figure location within a square and explain the difference in precision.

Exit ticket

Choose a response mode. You may give your answers privately to an adult.

What area does a four-figure reference locate?

My response

Why consult the actual map key?

My response

Support: The key identifies _____. Easting _____ then northing _____ gives _____.

Further challenge: Give a six-figure location within a square and explain the difference in precision.
