

Teacher card

Comparing places through online evidence / LAUNCH_A2_W06

Outcome: Compare the local area with a contrasting place using online evidence.

Evidence to retain: F: comparison and source evaluation.

Forty minute route

Arrival 4 min; starter 3; model 6; shared task 7; check 2; independent 12; review 3; exit 3.
Pause time is flexible.

Preparation

Choose one independent route. Print the evidence and shared cards, required visual or data sheet, route worksheet and exit. The organiser is one separate A4 page. Keep answers with staff.

Use school fieldwork arrangements. No pupil names or photographs of identifiable strangers are needed. Indoor observation is valid when accurately labelled.

Access and regulation

Pre-teach terminology and model evidence use. Chunk sources and data; provide an initial frame, then reduce it. Maintain normal access arrangements. Extend by weighing limitations, alternative explanations and evidence quality. Adults support access and evidence selection without supplying answers.

Offer a predictable start, private response and agreed pause. No cold calling or forced personal disclosure. Rejoin at one clearly named next step. Keep teen-appropriate examples and the same learning goal across response modes.

Use sensitive content warnings where relevant. Do not ask for family details or personal experiences.

Assessment

Use questioning and the exit response to decide the next step. Record the learner's individual contribution and the access support used.

UAS: no approved unit code is supplied. Match the learner's evidence to the centre-selected unit and exact criteria before submission. This pack makes no automatic award claim.

Model and answers

Read these pages before teaching. Hide the model during independent assessment.

Question: Why compare maps at similar scales?

Evidence: D Contrasting reference place: Compare a small centre such as Helmsley with central Middlesbrough at comparable map scales. Record the area, source and date used.

Think aloud: It reduces misleading differences caused by showing unequal areas or detail.

Check: Can one street represent a whole town without qualification? No. State the sampled area and limits.

Arrival answers

1. It compares counts across separate categories.
2. A place where people live
3. It reduces misleading differences caused by showing unequal areas or detail.
4. No. State the sampled area and limits.

Shared activity reasoning

Exit responses

Why compare maps at similar scales? It reduces misleading differences caused by showing unequal areas or detail.

Can one street represent a whole town without qualification? No. State the sampled area and limits.

Teaching and evidence record

Supplied scheme of work teaching sequence: Select comparable map/source evidence; assess provenance and usefulness; explain a contrast with evidence.

Look for

F: comparison and source evaluation.

Accept accurate equivalents, including speech or exact scribing. Check the concept and use of evidence rather than length or handwriting. Record access support separately from content prompting.

BUILD: a concrete example with a reason or demonstrated action. GROW: explain or compare with a relevant detail. LAUNCH: connect evidence and reasoning; use a limitation when the outcome requires it. Keep RE responses non-GCSE.

Media

Original captioned teaching model made for this pack. It demonstrates the supplied reasoning; it is not historical footage, survivor testimony or a documentary. The full transcript and factual source credits are included.

Use manual steps for a calm pace. The silent MP4 has visible captions and a matching text transcript. External archive media is optional and should be previewed before class.
