

## Old and new objects

Learning goal: Compare old and new objects.

### Words to use

| Word       | Meaning                          |
|------------|----------------------------------|
| past       | A time before now                |
| present    | The time we are in now           |
| change     | Something that becomes different |
| continuity | Something that stays the same    |

### Remember

What function do both phones share? They allow a conversation over distance.

Does newer always mean better for everyone? No. Suitability depends on the user and purpose.

### How to show your learning

Make an object comparison card.

Both objects \_\_\_\_\_. One difference is \_\_\_\_\_.

### Evidence matters

Fictional cases are teaching examples. Historical, geographical and religious claims use the named sources. A model video demonstrates a method.

You can respond by speaking, pointing, drawing, typing or writing. A fictional personal example is welcome.
