My response

My response

3 What function do both phones share?

Support: Use the model evidence anchor B or read one relevant card together.

My response

4 Does newer always mean better for everyone?

Support: Give a reason when ready.

My response

Stretch: use a precise example or explain which detail supports your answer.

Evidence cards

Read, point or listen. Keep the source label with any detail you use.

A A fictional week

Limit: This example does not describe every person or place.

B Telephone comparison

A rotary telephone and a smartphone both support conversations over distance. A smartphone can also show a video call; a rotary dial selects numbers differently.

Source: Authored comparison of familiar objects

Limit: A newer object is not automatically better for every person or purpose.

C Photo enquiry

Use the paired local photographs supplied with this unit. Read the captions and dates. Point to one feature in each image before deciding what changed.

Source: See photograph captions and credits

Limit: A camera angle or season can make features appear different; a photograph alone may not explain why.

D Questions worth asking

Who used this object? When was this photo made? A dated catalogue entry can help with time; a user's account can help with experience.

Shared investigation

1. Pair-match a rotary telephone and smartphone.
2. Sort visible differences from functions they share.

Work with a partner or adult, or use your own table. One person suggests; the other checks the evidence. Swap after one turn. Passing is allowed.

Use the evidence cards and any visual sheet. Follow the two shared steps above, then record one decision.
