

## Arrival choices

Previous lesson reminder:

Start with 1 and 2. Try 3 and 4 when ready. Reading and exact scribing are available.

### 1 Why include a data value in a pattern statement?

Support: Use the reminder strip or talk it through with an adult.

My response

---

---

---

### 2 Which meaning fits climate?

Support: Choose: Weather patterns over a long period OR A process or event with potential to cause harm.

My response

---

---

---

### 3 What three kinds of evidence does this assessment combine?

Support: Use the model evidence anchor assessment or read one relevant card together.

My response

---

---

---

### 4 Why should the source type be named?

Support: Give a reason when ready.

My response

---

---

---

Stretch: use a precise example or explain which detail supports your answer.

## **Evidence cards**

Read, point or listen. Keep the source label with any detail you use.

### **A Zones and events**

Broad temperature zones relate to latitude. Near the equator is generally warmer; high latitudes are generally colder. Local climate also depends on altitude and other factors. Earthquakes relate mainly to plate boundaries, not climate zones.

Source: Authored map explanation

Limit: Broad bands simplify climate; they are not a detailed climate classification.

### **B Human influence**

Burning fossil fuels adds carbon dioxide. Greenhouse gases slow heat loss to space. Human activity is the main cause of recent global warming.

Source: NASA Causes of climate change

Limit: One local hot or cold day does not establish the global trend.

### **C Two responses**

Reducing fossil-fuel use tackles a cause of warming. Shade, water access and cooler buildings can reduce harm during heat. These responses do different jobs.

Source: Authored examples based on climate mechanisms

Limit: Their suitability depends on the place and the needs of people there.

### **D Community accounts**

Fictional account 1: a faith group explains caring for creation as its reason for planting shade trees.

Fictional account 2: a non-religious residents' group gives human wellbeing as its reason for a cool-room project.

Source: Two authored teaching accounts with explicitly stated values

Limit: These are not reports of real organisations and do not represent every religious or non-religious person.

## Visual resource

Use this visual with the evidence cards and enquiry questions.

Source: Natural Earth public-domain outlines, labels simplified. Terms of use:  
<https://www.naturalearthdata.com/about/terms-of-use/> (recorded in Sources and checks).

A detail I noticed and what it helps me explain

---

---

---

# Data for the enquiry

Selected global annual temperature anomalies

| Year | Anomaly °C |
|------|------------|
| 1980 | 0.26       |
| 1990 | 0.45       |
| 2000 | 0.39       |
| 2010 | 0.72       |
| 2020 | 1.01       |
| 2024 | 1.29       |

Units: °C relative to 1951–1980

Source: NASA GISTEMP v4 annual J-D column; selected values checked 19 September 2026. The full series can be revised.

Limit: Selected years simplify the record. Use the full annual series to examine variability. An anomaly is a difference from the baseline, not the absolute temperature.

My labelled graph or data notes

## Shared investigation

1. Review the separate map, explanation and comparison requirements.

2. Practise one unrelated example before working independently.

Work with a partner or adult, or use your own table. One person suggests; the other checks the evidence. Swap after one turn. Passing is allowed.

Use the evidence cards and any visual sheet. Follow the two shared steps above, then record one decision.

Our explanation

---

---

---

Support: Read one evidence card together. Highlight a useful detail. Rehearse with: Location \_\_\_\_.  
Evidence \_\_\_\_\_. Explanation \_\_\_\_\_. Similarity or difference \_\_\_\_\_.

Further challenge: Evaluate one limitation of the map or data and one of the accounts.

## Supported independent task

Complete this route only. Complete a Geography and worldviews assessment and map-skills check and bank UAS evidence.

1. Complete a map check locating Japan and two climate-zone examples.
2. Explain a climate or hazard pattern using supplied evidence.
3. Compare the two community accounts and select labelled unit evidence.

Support: Read one evidence card together. Highlight a useful detail. Rehearse with: Location \_\_\_\_.  
Evidence \_\_\_\_\_. Explanation \_\_\_\_\_. Similarity or difference \_\_\_\_\_. Complete the organiser one space at a time.  
Location \_\_\_\_\_. Evidence \_\_\_\_\_. Explanation \_\_\_\_\_. Similarity or difference \_\_\_\_\_.

My answer to the assessment enquiry

---

---

---

My evidence and source

---

---

---

My explanation or comparison

---

---

---

My conclusion and what the evidence does not show

---

---

---

An adult may read or scribe your exact response. They should not choose the answer.

## Standard independent task

Complete this route only. Complete a Geography and worldviews assessment and map-skills check and bank UAS evidence.

1. Complete a map check locating Japan and two climate-zone examples.
2. Explain a climate or hazard pattern using supplied evidence.
3. Compare the two community accounts and select labelled unit evidence.

Support: Location \_\_\_\_\_. Evidence \_\_\_\_\_. Explanation \_\_\_\_\_. Similarity or difference \_\_\_\_\_.

My answer to the assessment enquiry

---

---

---

My evidence and source

---

---

---

My explanation or comparison

---

---

---

My conclusion and what the evidence does not show

---

---

---

Check the required evidence and revise one detail.

## Stretch independent task

Complete this route only. Complete a Geography and worldviews assessment and map-skills check and bank UAS evidence.

1. Complete a map check locating Japan and two climate-zone examples.
2. Explain a climate or hazard pattern using supplied evidence.
3. Compare the two community accounts and select labelled unit evidence.
4. Evaluate one limitation of the map or data and one of the accounts.

Support: Choose the evidence independently. Use the frame only if it helps.

My answer to the assessment enquiry

---

---

---

My evidence and source

---

---

---

My explanation or comparison

---

---

---

My conclusion and what the evidence does not show

---

---

---

Evaluate one limitation of the map or data and one of the accounts.

## Exit ticket

Choose a response mode. You may give your answers privately to an adult.

### What three kinds of evidence does this assessment combine?

My response

---

---

---

### Why should the source type be named?

My response

---

---

---

Support: Location \_\_\_\_\_. Evidence \_\_\_\_\_. Explanation \_\_\_\_\_. Similarity or difference \_\_\_\_\_.

Further challenge: Evaluate one limitation of the map or data and one of the accounts.

One thing I changed or want to check
