

Respecting special objects

Learning goal: Show one respectful way to handle or respond to a special religious object.

Words to use

Word	Meaning
respect	Treating people and things with care
handle	To hold or touch something with your hands
replica	A copy made for learning, not the real object
sacred	Special and holy to people of a faith

Remember

Why do readers often use a pointer with a Torah scroll? So that fingers do not touch the handwritten scroll.

Do you have to touch an object to show respect for it? No. Looking carefully is a respectful choice.

How to show your learning

Choose three respectful actions.

I can show respect by _____. This matters because _____.

Evidence matters

Fictional cases are teaching examples. Historical, geographical and religious claims use the named sources. A model video demonstrates a method.

This is learning about religion and worldviews, not worship. Nobody is asked to share a personal belief, family detail or loss.
