

Belonging across faiths

Learning goal: Describe what belonging can mean in two faith or worldview communities.

Words to use

Word	Meaning
belonging	Feeling part of a group and welcome in it
faith community	People who share a religion and meet together
practice	Something people do as part of their beliefs
support	Help given to someone

Remember

Give one way a faith community can support belonging. For example, sharing a meal, praying together or serving others.

Does everyone in a faith community feel belonging in the same way? No. Belonging varies between individuals.

How to show your learning

Complete the map for both profiles using the four lenses.

Evidence matters

Fictional cases are teaching examples. Historical, geographical and religious claims use the named sources. A model video demonstrates a method.

This is learning about religion and worldviews, not worship. Nobody is asked to share a personal belief, family detail or loss.
