Staff answers and decision rules

BUILD Spring 1 Week 1 Monday 4 January 2027 P5 Year A Explore

Examples are adult models. They are never prefilled pupil evidence.

Arrival

Both choices are valid. Accept a pupil's own feeling word and any culturally different colour association.

Starter

A slow wave might show calm because it moves gently. Quick taps could show calm for someone who enjoys a steady beat. Meaning depends on the maker.

I do

The key is an intentional choice and reason. Blue does not always mean calm. Quiet sound is an option, and silence is a valid artistic choice.

We do

For example: We chose slow marks because they feel still. Accept a different reason if it links a visible or heard feature to the intended effect.

Create

Example sound piece: four slow soft taps, a pause, repeated once. Example painting: spaced curved blue marks. Each is a teacher model, not a required answer or pupil evidence.

Review

A useful observation is: I notice big gaps between the marks. A guess about a pupil's private life is not required or recorded.

Exit

Example only: I tried two beats. I chose slow taps because I wanted calm. Next time I will add a pause.

Teacher example

Teacher model only: My feeling is calm. I tried short marks and a long curve. I chose the curve because it flows.

Teacher model only: I made four quick soft taps, then a pause. My piece shows energy without loud noise.
