# My feelings piece and arts log teacher and cover plan

BUILD Spring 1 Week 1 Tuesday 5 January 2027 P1 Year A Explore

Teach one 40 minute lesson. Both pathways use Explore. Use colour/sound to express a feeling.

Today: I can make a short piece and tell you about my choice.

## Success criteria

I can find my test and chosen feeling.

I can use a mark or sound on purpose.

I can add my work and words to my arts log.

## Prepare before pupils arrive

For four pupils: four previous tests, arts logs and pencils. Offer a catch-up test if a pupil was absent.

Paint option: four sheets, five brushes, mats, stable water pots, a small amount of washable paint and cloths.

Sound option: fingertips or quiet hand movement, no instrument required. Provide a quiet listening space.

Adult model: one test and one tiny developed example. Drying space for paintings.

No-materials option: silent finger sequence, air drawing or pupil-directed adult movement.

Set a clear stop signal and quiet option. Offer an invented feeling or abstract theme. Have the prior work or an honest catch-up trial ready for lesson two.

## Timing

Arrival 0-3; Starter 3-6; I do 6-12; We do 12-18; Create 18-32; Review 32-37; Exit 37-40 minutes. Tidy in the final two minutes of Review.

## Non specialist demonstration

0 to 15 seconds: Point to a real adult test. Say: I choose this curve for calm.

15 to 30 seconds: Repeat three curves with spaces. Say: I keep space because it feels still.

30 to 45 seconds: Show four soft taps and a pause twice. Say: I can show a sound in a beat plan.

45 to 60 seconds: Say: I kept this feature because it fits my idea. I keep my real work and words in my log.

# Teaching the first twelve minutes

BUILD Spring 1 Week 1 Tuesday 5 January 2027 P1 Year A Explore

## Arrival 0 to 3 minutes

Pupil task: Find your test from last time. Point to the mark or beat you chose. You may keep the feeling or choose a new one.

What to say: Find your own tests. If you were away, we can make two tiny tests now. We keep today's real date and say what happened. A feeling can be made up.

What good looks like: The pupil identifies a real previous choice or makes a short honest catch-up trial. No earlier evidence is invented.

Materials free fallback: Adult recalls only a choice that was actually witnessed. If none exists, offer two silent patterns to try now.

Check and response: Either continuing or making a fresh trial is valid. Log the actual work and date.

## Starter 3 to 6 minutes

Pupil task: Watch four soft taps with a pause. Watch the same taps with no pause. What changed? Which version fits your idea?

What to say: The taps stay soft. This time I change only the pause. Show me what changed and tell me which you would choose for a made-up feeling.

What good looks like: The pupil identifies the pause and makes an intentional choice, rather than copying an expected feeling.

Materials free fallback: Use four silent finger moves, hold still, repeat. Pupils may just watch and point.

Check and response: The pause changed. It might create calm, waiting or surprise. The maker's reason determines the intended effect.

## I do 6 to 12 minutes

Pupil task: Watch a tiny piece grow from a test. Paint: repeat a chosen mark. Sound: repeat a four-beat pattern. I can keep a choice or change it.

What to say: I use yesterday's curve test to make three spaced curves. I keep the space because I want calm. If I choose sound, I repeat four soft taps and a pause twice. I check my idea, then keep a sketch or a beat plan and my own words. These are adult examples.

What good looks like: A clear link from trial to piece, one deliberate feature and a short review. The piece can stay small. Show how to log a sound using written beat words or simple dots and a gap.

Materials free fallback: Make three air curves or a silent four-move sequence. Say what an adult could record as a witnessed performance.

Check and response: The log may contain a sketch, written pattern, work-only image or witnessed description. A recording device is not needed.

# Guided practice and making

BUILD Spring 1 Week 1 Tuesday 5 January 2027 P1 Year A Explore

## We do 12 to 18 minutes

Pupil task: Help make a class piece for a made-up character. Pick one mark or four-beat pattern. Try a change. Choose keep or change. Finish: We chose ___ because ___.

What to say: Our made-up character feels hopeful. You direct my marks or soft taps. We can change the space or add a pause. Which should we keep and why? Each pupil's own work comes next.

What good looks like: Pupils test one small change and confirm an intention. The shared class model is labelled as a model and is separate from individual evidence.

Materials free fallback: Adult follows pupils' silent hand directions. Use a gesture for keep or change.

Check and response: For example: We kept the growing gaps because they feel open. Other justified choices are valid. Hope does not have one fixed colour or sound.

## Create 18 to 32 minutes

Pupil task: Use your test to make a small painting or sound piece. Repeat your mark or short pattern. Check one feature. Keep it or change it. Keep a sketch, beat plan or adult witness note. Add: I chose ___ because ___.

What to say: Choose paint, sound or the silent option. Use your own idea. Make it small enough to finish a first version today. Check one feature, then keep or change it for a reason. I can move materials under your direction. Sound stays below talking volume and stops on my raised hand.

What good looks like: A real first piece or clearly labelled unfinished work, a deliberate feature, a keep/change decision and pupil-owned log. Adult help supports access without supplying the choice.

Materials free fallback: Create a silent hand sequence or air drawing, or direct the adult. Record the order, intended feeling and confirmed reason on the arts-log sheet when available.

Check and response: A complete lesson response may be four soft taps and a pause repeated twice, with a simple beat plan and reason. A painting can use only a few intentional marks.

# Review and evidence

BUILD Spring 1 Week 1 Tuesday 5 January 2027 P1 Year A Explore

## Review 32 to 37 minutes

Pupil task: Show your work to an adult or partner. Say: I chose ___ because ___. Listener: I notice ___. Tidy and store your work.

What to say: Ask the maker before you comment. Describe a mark, sound or pause, then let the maker explain. You can share privately. We use the last two minutes to wipe mats, cap paint and place work flat. Keep the maker's own review.

What good looks like: The maker explains one feature and receives a respectful observation. No compulsory performance or personal disclosure. Work and evidence remain individual.

Materials free fallback: The adult watches a silent sequence and reads a short description back for pupil approval. A private audience is enough today.

Check and response: For example: I chose a long pause because the character is waiting. I notice the pause comes after each four taps.

## Exit 37 to 40 minutes

Pupil task: Arts log: I made ___. I chose ___ because ___. I kept or changed ___. Next I would like to ___.

What to say: Your log can be spoken, drawn or written. I will scribe your exact words and read them back if needed. Show the work or plan the words refer to. Today contributes to your Explore record. We will keep building it across the term.

What good looks like: A dated entry links actual work with the pupil's intention, decision and next step. Staff state what was witnessed and what help was used, without claiming the whole award is complete.

Materials free fallback: Pupil confirms the sequence and reason using gestures. Adult records that response, with the actual support and date, at the next recording opportunity.

Check and response: Example only: I made a calm sound piece. I kept slow taps because they feel still. Next I would like to try two sounds.

## Store and log

Use the final two minutes of Review for quiet tidy-up. Keep paintings flat to dry, cap wet materials and wipe mats. Sound and movement pupils retain a simple sequence plan or dated adult observation plus their words. Work-only images are optional. Store the actual first attempt and log together.

## Cover teacher route

Read the task and make two tiny tests in paint, sound or silent hand movement. Let pupils choose a feature and make a short response. Use the same timings and log prompts. No specialist demonstration is needed. If prior work is missing, use a fresh trial with today's date.

# Access and teaching decisions

BUILD Spring 1 Week 1 Tuesday 5 January 2027 P1 Year A Explore

## Adaptations and prompt ladder

Cognition and Learning: Show one instruction at a time. Model a small test, offer two choices, then fade the prompt. Read the artist description aloud when needed.

Communication and Interaction: Allow pointing, signing, speech or an adult scribe. Give processing time. Use I chose ___ because ___. Read scribed words back for correction.

SEMH: Use a fictional feeling or abstract idea. Let pupils choose form and audience. Offer a calm pause and agreed return cue. Public performance and personal disclosure are optional.

Sensory and Physical: Offer silent seated movements, large marks and pupil-directed adult handling. Keep sound below talking volume. Stop on a raised hand. Ask before touching work.

EAL: Plan in any language. Teach words through marks and gestures. Accept a labelled sketch or oral explanation. Check meaning before spelling.

1. Point to the place or instruction.
2. Ask a short question.
3. Rephrase the instruction.
4. Provide a scaffold or choice.
5. Model the first step only, then return the task.

## Common mistakes and fixes

Change means the first version failed - A trial helps the maker choose. Keeping a feature for a reason also counts as a review.

Only a recording can show a sound piece - Keep a simple beat plan and a dated witness description, confirmed by the pupil.

The audience decides the maker's feeling - Listeners describe what they notice. The maker explains the intended feeling.

## Feedback

Give one specific success and one next step. VF verbal feedback; WS worked with support; I independent; NS next step; // self-edit; ? read this back; E evidence retained; R responded. Use R only when pupil voice and an audience are present, one NS is set, and the pupil responds in the same colour, on the same page or usual mode. A saved image alone is not R.

## Where this leads

Artists, designers and performers test ideas and explain their choices. These skills help when working to a brief.
