Activity cards

Use these as prompts. Complete your response in your book, arts log or chosen art form.

1 0 to 15 seconds

Put ridged card on the table. Lay thin paper over it. Hold the paper edge.

2 15 to 30 seconds

Place the crayon on its side. Make four light back-and-forth sweeps.

3 30 to 45 seconds

Lift the paper. Notice the ridges. Make a small second test over smooth card.

4 45 to 60 seconds

Compare the actual marks. Choose a test and explain a possible feeling.

Your own making

Make your own choice. Keep or change one feature and give your reason.

Make a smooth glide and a stop-start hand path, with a still end pose. Choose one texture for the invented feeling. Pupil may direct the adult or use eye-pointing. Staff record the actual movement method, not rubbing.
