Encounter variants

These are access options for classroom arts learning. They do not prove a visit, live event or future encounter.

Core classroom route

Use original models, a live adult demonstration, pupil trials and a private or pair observation. Keep what actually happened and the pupil view.

Quiet route

Compare the pictured textures or a silent adult movement. Pupil directs a choice. Use a precise witnessed sequence and confirmed reason.

If a real encounter is separately arranged

Follow the setting arrangements. Record actual date, format, what the pupil observed and their own response after it happens. Do not complete an attendance or encounter entry in advance.

No access to materials

BUILD uses smooth and stop-start movement with held end poses. GROW uses its planned silent sequence or an honest new small plan. Adult direction is valid. Label the actual method and support.
