Sequence and evidence guide

Creative Arts · Spring 1 Week 4 · Year A · Resilience & Change

Both pathways work at Explore. Four forty-minute lessons continue the accepted Spring 1 sequence.

BUILD

Monday 25 January 2027 P5; Tuesday 26 January 2027 P1.

Try a new expressive technique.

Week 1 used drawn or painted marks and quiet beats. Week 2 used a planned emotion piece. Week 3 used torn shapes and arrangement. Week 4 introduces texture rubbing over a surface. It was not used in those authored lessons.

The silent fallback translates smooth and uneven texture into movement with held end poses. Record the actual movement technique. Do not label it a rubbing.

GROW

Monday 25 January 2027 P6; Wednesday 27 January 2027 P5.

Create my resilience-themed piece.

Use the chosen and annotated Week 3 plan. Make a first section, then develop the piece. Reconcile its provisional time plan with fourteen minutes of making per lesson. Record resources, choices, changes and the true stage.

Arts log and progression

A Take part

Add dated actual participation and the technique or making method tried.

B Explore

Retain prior artist research and pupil views. Do not invent a new artist encounter or overwrite prior work.

C Create

Keep the Week 3 plan with Week 4 tests, actual work or precise witness notes. Record intention, decisions, changes, support and the true next step.

D Share

Record only a real classroom sharing opportunity, listener observation and pupil response. A private share is valid. Do not prefill a later event.

Evidence index

Continue the established five-file pattern: A, B, C, D and the index. Keep actual work inside the relevant record where practical. Blank templates are optional prompts, not completed evidence.

Optional next level stretch

Each GROW lesson includes extra skill comparison, feedback, reasons and evaluation. Keep it separately labelled within the log. Explore criteria stand complete without it. Review the whole portfolio before any level decision.

Practical teaching and access

Start with the dated teacher and cover plan. The editable slides and HTML contain the same pupil tasks. PDFs provide prepared print layouts. Each edition is portable; keep assets with the lesson pages.

Forty minute lesson

Arrival 3; Starter 3; I do 6; We do 6; Create 14; Review 5; Exit 3. Tidy in the final two Review minutes. Extra examples, routes and stretch use time within these stages.

Evidence ownership

Pupils choose the idea, features and reasons. Adult help supports access and is recorded. A scribe records actual words, reads them back and allows correction. Models are not pupil evidence.

Participation

Use invented or abstract ideas. Offer a quiet pause, silent or seated making, pupil-directed adult action, and private sharing. No personal disclosure, phone or public performance is required. Plan in any language.

Visual examples

The example sheet is an original generated illustration of textures and a route around a block. It is a comparison prompt, not proof of a specific rubbing result or a pupil artefact. Demonstrate and keep actual tests.

Next return

Week 4 only. Weeks 5 and 6 follow separately after Downloaded, using rows 92 and 93.
