Teacher and cover plan

GROW Spring 1 Week 6 Wednesday 10 February 2027 P5 Year A Explore

My research and arts learning

Weekly outcome verbatim: Research an artist or performer who inspires me (Bronze).

GROW Weekly Spring row 93. Year A. Resilience & Change. Current level Explore.

40 minutes: Arrival 3; Starter 3; I do 6; We do 6; Create 14; Review 5; Exit 3. Tidy in the final two Review minutes. Source notes, demonstrations, routes and extra depth fit inside these stages.

Prepare

Actual arts log and own work from Weeks 1 to 5, including the Week 3 plan where relevant.

Six-outcome evidence sheet; keep actual dates, locations, pupil words and support.

Book and ordinary writing tools if available; oral or signed responses and adult scribing are valid.

Research notes M1 and T1, read aloud if needed. No pupil internet access or login is needed.

Catch up

Use the actual available evidence. Date any new review or research today. Mark unavailable earlier work as a gap and never reconstruct it as old evidence.

Assessment

Use each pupil’s real evidence with the six exact outcomes from rows 88 to 93. Choose one status per row and add dates, locations and a comment. Record a gap without judging the pupil or filling it with a class model.

Arrival and starter

GROW Spring 1 Week 6 Wednesday 10 February 2027 P5 Year A Explore

Arrival 3 minutes

Say and do: Recover Monday’s record and the chosen source note. If missing, create a short honest research record now using the supplied source, dated today. Do not invent a previous visit, interview or study session. Reconfirm that the current log is Explore and the exact scheme outcome names Bronze for progression.

Look for: The pupil has a real starting record and source, or an honest current catch-up record.

Materials-free route: Read the source and actual research aloud. Accept signed or oral responses with accurate adult scribing.

Check and response: A record made today is valid when dated today. It does not prove a missing Monday activity.

Starter 3 minutes

Say and do: Revisit the pupil’s question. Let them identify what the note answers and what remains unknown. If it does not answer a question, say so. Help narrow the research to the artist’s career and work. Do not invent an answer about private feelings, intentions or events.

Look for: The pupil can identify a source-supported finding and a remaining uncertainty.

Materials-free route: Offer one fact and one unanswered question orally. The pupil chooses the one supported by the note.

Check and response: The supplied notes explain public career or method facts. They do not answer every question about the artist.

Modelling and shared practice

GROW Spring 1 Week 6 Wednesday 10 February 2027 P5 Year A Explore

I do 6 minutes

Say and do: Model with T1: Thomas used repeated coloured marks in later abstract painting. My response is that changing the gaps between my own marks could suggest a fresh start. That is my idea, not a reproduction or a claim about Thomas's feelings. Show how to record source T1, the fact, the specific feature, my reason and a possible next action. Briefly tell the adult listener what I found and note that real private sharing. This is a model only.

Look for: The model joins accurate research to a personal reason and an original next idea, without copying a work.

Materials-free route: Describe an original pattern of short and long pauses as a possible personal response. The pupil need only explain an idea today; a new finished artwork is not required.

Check and response: Check: Can I be inspired by a method while making my own different piece? Yes. A copied picture or invented quotation is unnecessary.

We do 6 minutes

Say and do: Compare A I copied the note and everyone must like this artist with B I explained two facts, named the note and gave my own reason about a feature. Choose B. Rehearse a short private explanation to an adult. The listener asks one factual question; the researcher may say I do not know yet. This supports communication without requiring a peer comment or a public show.

Look for: The pupil recognises own-word findings, source identification and personal reason as the useful evidence.

Materials-free route: Use the two options orally. The adult can be the listener and the pupil can point to or direct their recorded answer.

Check and response: If A is chosen, cover the note and help the pupil explain one meaning. Parallel check: Is saying a feature interests me the same as saying everyone must like it? No.

Independent task and evidence

GROW Spring 1 Week 6 Wednesday 10 February 2027 P5 Year A Explore

Create 14 minutes

Say and do: Use about seven minutes to complete the research record in the pupil's own words, checking any final facts against the chosen source. Add a specific reason the artist interests or inspires the pupil, and one original next idea. If inspiration remains uncertain, record that honestly and identify what they would explore next. Use about two minutes for a private explanation to one adult or a freely chosen listener. Record the actual date, what was shared and one response, or mark sharing pending if the pupil opts out. Use about five minutes to check all six grid rows, reusing Monday's comments and adding rows 4 to 6. Row 6 points to the actual research. Record help and honest gaps. No new art reproduction or copied text is needed.

Look for: The final record has one chosen artist, a question, checked career and work facts, source details, a feature-specific personal response, an original idea and actual sharing status. All six outcomes have truthful comments.

Materials-free route: The pupil gives an oral, signed or directed explanation. An adult records exact words and actual sharing, with read-back. If writing materials are absent, record later and keep the transcription pending meanwhile.

Check and response: Research can support later arts inspiration evidence when it shows genuine enquiry, learning and personal response. A private adult share is a valid classroom route. Any future qualification judgement checks the whole portfolio and current requirements.

Optional further depth

Link a checked career fact to a method that interests you. Explain what your source cannot answer and choose a useful next research question.

The core research is this week's task. This extra depth is optional. The current log remains Explore.

Review and exit

GROW Spring 1 Week 6 Wednesday 10 February 2027 P5 Year A Explore

Review 5 minutes

Say and do: Use the source note to check facts and the pupil to check personal wording. Read scribed words back. Confirm one next step and any missing evidence. Make no automatic award or full-level claim. Use the final two minutes to store the log and grid together.

Look for: The pupil recognises their own research and can locate the supporting source and half-term evidence.

Materials-free route: Read short parts aloud and let the pupil confirm, correct or indicate an uncertainty.

Check and response: An uncompleted share remains pending. A source note in the folder is not by itself the pupil’s research or a completed arts award.

Exit 3 minutes

Say and do: Record the real location of the final research and assessment grid. Keep it in the current Explore log with a clear progression note. The six-week teaching sequence ends here. Identify any evidence gaps for later support without promising certification or filling them in advance.

Look for: The final research, grid and next step are findable, dated and truthful.

Materials-free route: Retain a precise dated witness record of the pupil’s confirmed words, source and support.

Check and response: The short record can be retained for later review of arts inspiration evidence. The whole next level includes other work and cannot be awarded from this record alone.

Access and adult support

GROW Spring 1 Week 6 Wednesday 10 February 2027 P5 Year A Explore

Cognition And Learning

Show one prompt at a time. Model a short example, then fade to a sentence start. Revisit the same words and use the actual work beside the prompt. Chunk the six-week grid into two groups of three. Allow thinking time.

Communication And Interaction

Read all prompts aloud. Accept pointing, signing, speaking, drawing or pupil-directed adult recording. Offer a choice before an open question. Read scribed words back and let the pupil correct them.

SEMH

Keep review private and about choices in the work. Use invented or abstract ideas and avoid questions about personal adversity. No grades, rankings or public performance. Offer a calm pause and an agreed return cue.

Sensory And Physical

Offer a seated, silent route and a large print view. Use a description or precise witnessed sequence where a visual piece is inaccessible. The pupil can direct adult handling. Keep actual support visible in the record.

EAL

Plan in any language. Read the source note or prompt slowly and check meaning. Accept oral ideas before writing. Translate with support where available while retaining the pupil’s intended meaning.

Prompt ladder

Point to the place or instruction. Ask a short question. Rephrase. Offer a scaffold or choice. Model the first step only, then return the task.

TA focus

I do: Point to the evidence or source. Read the short frame and check meaning.

We do: Offer a brief question or choice, then wait. Model only the first step if needed.

Create: Scribe the pupil’s own words, read them back and record the real support. Keep adult judgement separate.

Where this leads

Artists use reviews and research to make choices and explain their work. These habits also support clear communication in many kinds of work.
