Useful step	Needs a change	Check first
The step helps with the task.	The plan needs a different step.	A fact or some help is needed.

My reason

I chose __ because __.
The fact that matters is __.
The next step is __.
I need to check __ with __.

Steps I can use

1 Pause	2 Check facts	3 Choose a step	4 Ask for help
Take a moment.	What do I know?	What could help?	Who can support me?

Private help card

Can I speak to you in private?
I need help. I can show this card to the adult. I can pass and use another made-up case.

If one adult cannot help, ask another trusted adult. Getting help is okay.

A shop problem

This is a made-up scene. You can use the words below as well as the picture.

A new bag has a faulty zip. The buyer can contact the shop and explain the problem.

Fault	**Change of mind**
The item does not work as it should. Ask the seller for a remedy.	The item is sound but you no longer want it. For an in-shop buy, check the returns policy.

A receipt can help prove a purchase. Other proof may count too. A refund is not promised for every return.

A message to practise

I bought __. The problem is __. Please can you help?
