Growth record through Week 5

White standard edition

Horticulture: soil, seeds & planting.

Tray setup

Crop: garden pea
Tray code: ____
Seeds sown: ____
Medium used: ____

How to record

Keep this record with your book. Use the row prompts in your book or tell an adult what to scribe. Count emerged shoots and measure the same marked shoot from the medium surface in centimetres. Write not emerged or no visible change when that is what you see.

Check moisture before watering. Record actual care, including no water needed. An adult checks root space and may move seedlings to larger pots or add support. Keep the tray code and record a move. No tasting or eating.

Growth record through Week 5 continued

White standard edition

Weekly observations

Use real observations. Leave a height unmeasured if no shoot is visible.

Week	Growth check	Care and next check
1	Shoots up ____ Height ____ cm Visible change ____	Moisture ____ Care given ____ Next check ____
2	Shoots up ____ Height ____ cm Visible change ____	Moisture ____ Care given ____ Next check ____
3	Shoots up ____ Height ____ cm Visible change ____	Moisture ____ Care given ____ Next check ____
4	Shoots up ____ Height ____ cm Visible change ____	Moisture ____ Care given ____ Next check ____
5	Shoots up ____ Height ____ cm Visible change ____	Moisture ____ Care given ____ Next check ____

An adult checks between lessons, absence and nonteaching days. Growth rate and success can vary.
