Supervised tool handling jobs

White standard edition

Using gardening tools safely.

Before handling

Choose a job with the adult. Check the tool and space. Wear suitable footwear, cover cuts and use suitable gloves. Keep unused tools parked.

Practice one tool at a time

1 Name the tool and its job.
2 Show a safe carry and place it down.
3 Use it for the agreed job with your free hand clear.
4 Park it before another person takes it.

Use a hand fork only in a clear demonstration area, away from roots. Use a small manageable watering load. Secateurs handling is closed and locked unless an adult separately authorises a cut. No pupil cut is required.

The adult records only what is seen. Observing or rehearsing is recorded honestly.

Supervised tool handling jobs continued

White standard edition

Clean and store

Brush soil from checked blunt tools. Wipe and dry under supervision. The adult cleans sharp blades and collects secateurs into secure storage. Keep the route clear and wash hands with soap and water.

Picture response

In panel __, the hazard is __. A safer action is __.

My one line

I handled ____ safely by ____.

Use your book or tell an adult what to scribe. You may ask for a quiet pause after parking the tool and telling the adult.
