Maintenance jobs and self check

White standard edition

Maintaining a growing area.

Our agreed job

Rota job ____ Area or tray code ____ Role code ____

1 Agree one useful job with the adult. Check the area and tools. The adult takes the before area photograph before maintenance starts.

2 Check before acting. Water only if needed. Remove only a plant the adult identifies as unwanted. Observe pests and damage without handling unknown material.

3 Complete the agreed job. Keep roots safe and routes clear. Indoor choices include tray care, brushing and rinsing checked empty pots, draining and drying, or preparing labels.

4 Park tools. The adult takes the after photograph from the same view. Give an actual-change or no-change caption. No people or identifying details appear.

5 Store tools, clear safe spills and wash hands with soap and water. Add the real Week 4 growth entry. Adult decides any further pot cleaning before reuse.

You may observe, label or record. Park tools and tell the adult before a quiet pause. No tasting or eating.

Maintenance jobs and self check continued

My safe working self check

Use your book or tell an adult. Choose yes, help or not yet honestly. Ask the adult to compare with the observed job.

Safe working check	My check
I checked the job, tools and clear space.	Yes / help / not yet
I checked before watering or removing a plant.	Yes / help / not yet
I reported unknown material and kept roots safe.	Yes / help / not yet
I parked tools, tidied safely and washed hands.	Yes / help / not yet

My one line

I maintained ____ by ____.

Week 4 entry

Keep the original tray code and earlier entries. Count actual shoots and measure the same marked shoot from the medium surface in centimetres if visible. Record moisture, care and any pot or support change. No growth or no water needed can be true.
