Real group growth record

Pink supported edition

Record growth (links Science).

Actual group figures

Original tray code ____
Method and precision ____
Record real values only.

Shoot code	Height cm	Whole leaves	Condition
____	____	____	____
____	____	____	____
____	____	____	____
____	____	____	____
____	____	____	____

The adult shows the whole-leaf unit.
A missing value stays unavailable.

Real group growth record continued

Pink supported edition

One real repeated series

Selected tray and marked shoot code ____
Use that same shoot over time.

Week	Verified height in cm
1	____
2	____
3	____
4	____
5	____

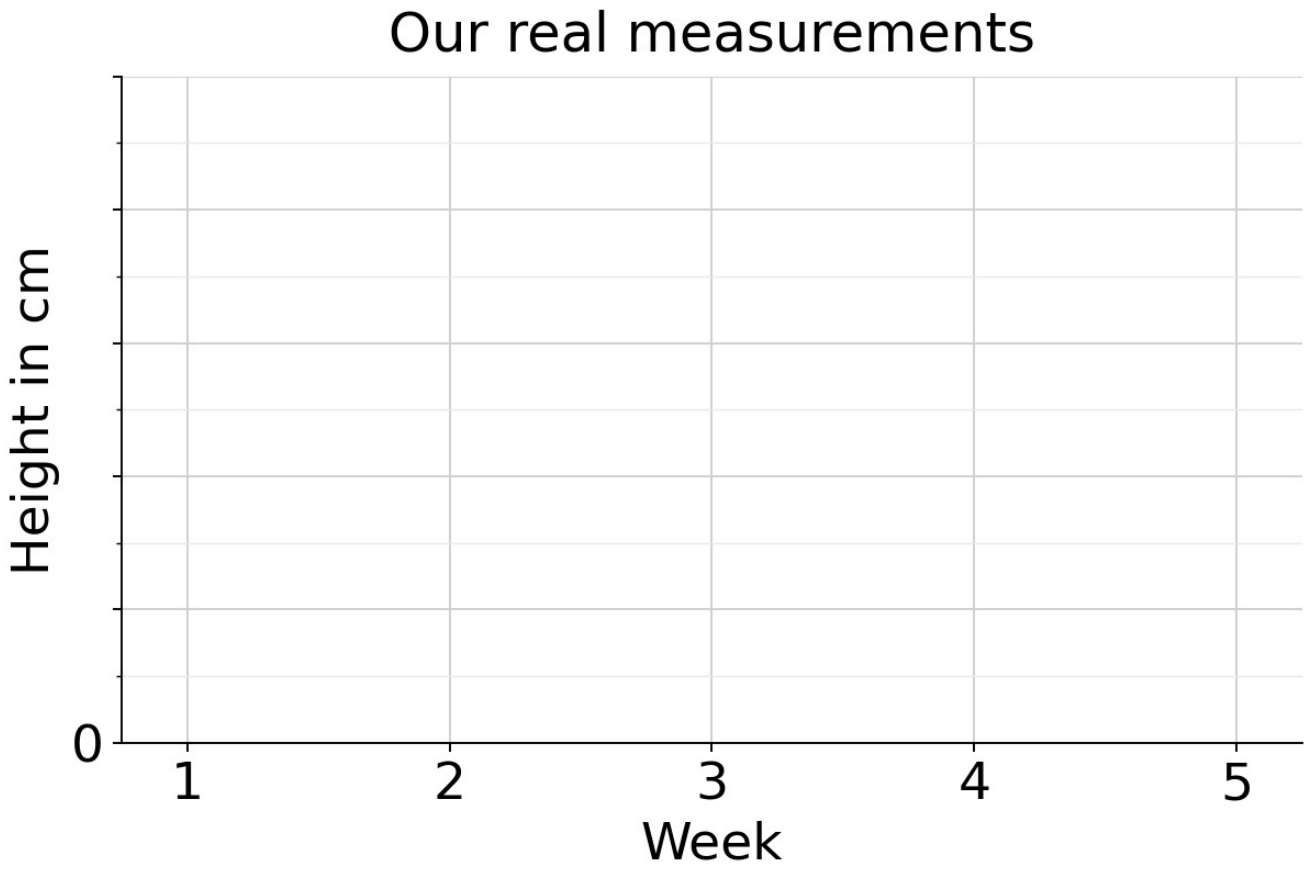

Keep earlier records.
Do not join different plants as one growth story.
Do not copy the invented model.

Our real graph

Write equal height steps at the blank ticks.
Use a scale that fits the real heights.

Leave a gap for unavailable values.
One value means one point, without a trend.
