Measuring and plotting jobs

Pink supported edition

Record growth (links Science).

Find and measure

Find the tray and marked shoot code.
Check the earlier method with the adult.
Read height in centimetres.
Do not pull or stretch the plant.

Count and look

Count whole open pea leaves as shown.
Do not count each leaflet or tendril.
Describe green, pale, firm, leaning or another visible feature.

Recheck an unexpected reading.
Record only what you actually see.

Pink supported edition

Use one real series

Choose the same marked shoot over time.
Check the earlier records.
Missing is not zero.

Draw the graph

Week goes across.
Height in cm goes up.
Choose equal scale steps.
Plot real values.

Join neighbouring recorded weeks only.
Leave a gap for a missing week.
One real value means one point, without a trend.

Pink supported edition

My one line

Our recorded pattern shows ____; one possible influence is ____.

Use your book or tell the adult what to scribe.
A pattern does not prove a cause.

Keep records honest

The invented model is for practice only.
Do not copy it into real plant records.

Finish

Park rulers and clear spills.
Wash hands with soap and water.
You may ask for a quiet pause.
