Records and calendar guide

White standard edition

Horticulture outcome.

Finish real records

Keep the original tray and marked-shoot codes and earlier entries. Use actual heights, whole expanded leaf counts and condition. Leave unavailable values honest. Do not copy invented model figures into the real record. A changed measuring method needs a labelled break.

Finish our calendar

Use the group’s actual crop choices and check their sowing, planting-out and harvest windows. The supplied twelve-month guide is one conditional spring-to-autumn route. Weather, frost, variety, space and care can change timing. A calendar month does not promise a harvest.

Explain the evidence

Show one recorded finding and one sensible care or planning decision. A private explanation, pointing to the record or scribed words can show understanding. Review all six outcomes against the evidence actually available; one presentation does not prove every practical skill.

Records and calendar guide continued

White standard edition

Conditional monthly guide

R = radish. L = looseleaf lettuce.
B = broad beans.

Month	Sow	Plant out	Harvest
January	None	None	None
February	B indoors	None	None
March	R, L outdoors B indoors or outdoors	B	None
April	R, L, B outdoors	L, B	R
May	R, L outdoors	L	R, L
June	R, L outdoors	L	R, L, B

March outdoor lettuce means late March if conditions suit. Plant out robust hardened plants only. Harvest only when ready. None means none in this selected route.
