Plant readiness and care handover

Pink supported edition

Horticulture outcome.

Check readiness

Ask the adult if the plant needs more room.
Pot on only if needed and ready.
Keep the pea root ball intact.
Do not pull tangled roots apart.

Outside has extra checks

Original pea trays stay indoors.
Another suitable crop only, with hardening off completed.
Safe weather, ground, route and adult permission.
If any check fails, use suitable indoor care.

Plant readiness and care handover continued

Pink supported edition

A clear label

Keep the crop and original tray code.
Record any new pot or position.

Handover before leaving

An adult checker and backup must accept.
Confirm safe access and what to do if it fails.
Check daily. Water only when needed.

No pupil must take plants home.
No tasting, eating or promised harvest.
