Write a fieldwork enquiry

Tuesday 15 December 2026 | P2 | 40 minutes | Year A

White paper version | Read quietly. Point, write, type or use a scribe. No reading aloud is required.

Route: Supported | Learner code ____ | HUM-LAUNCH-A2-W07-E1

Use your checked anonymous fieldwork, or supplied practice data S1–S3. Mark which source you use. The supplied site is fictional. Write the place type only.

1 Choose your source with an adult. Use S1 to frame your question and method. Say “The supplied data describes…” if you did not collect it.

2 Copy or direct the table entries. Use the graph grid, or label and check a supplied graph. Point to two counts and say what they show.

3 Use the sentence frames to answer the question. Choose one limit and a useful change. Keep your own words and the help used.

My enquiry order

Question. Method. Table. Graph. Findings. Evaluation. Use the three-page evidence form. You can write, type, point or direct a scribe. You do not have to read aloud.

Finding frame: In section __, there are __ plots used for __. This is __ more or fewer than __. This helps answer my question because __.

Evaluation frame: One limit is __. This may affect __. I would __ so that __. If the source is supplied, I can assess its stated method but did not carry it out.

Finish

Keep your own six-part enquiry, two numerical findings and one limit with a linked improvement. Label the source and actual help. Check one next step from an adult and keep your response.

Tuesday 15 December 2026 | P2 | 40 minutes | Year A

White paper version | Read quietly. Point, write, type or use a scribe. No reading aloud is required.

Route: Independent | Learner code ____ | HUM-LAUNCH-A2-W07-E1

Use your checked anonymous fieldwork, or supplied practice data S1–S3. Mark which source you use. The supplied site is fictional. Write the place type only.

1 State your question and source. Describe the sample, place type, unit and coding rule. Use S1–S2 or your checked records.

2 Create or attach a checked table and graph. Show a title, labelled axes, even scale and key. Explain two findings with exact counts.

3 Answer the question in a short conclusion. Explain a limit and its effect, then a change that would improve the evidence.

My enquiry order

Question. Method. Table. Graph. Findings. Evaluation. Use the three-page evidence form. You can write, type, point or direct a scribe. You do not have to read aloud.

Finding frame: In section __, there are __ plots used for __. This is __ more or fewer than __. This helps answer my question because __.

Evaluation frame: One limit is __. This may affect __. I would __ so that __. If the source is supplied, I can assess its stated method but did not carry it out.

Finish

Keep your own six-part enquiry, two numerical findings and one limit with a linked improvement. Label the source and actual help. Check one next step from an adult and keep your response.

Write a fieldwork enquiry continued

Tuesday 15 December 2026 | P2 | 40 minutes | Year A

White paper version | Read quietly. Point, write, type or use a scribe. No reading aloud is required.

Route: Aspire | Learner code ____ | HUM-LAUNCH-A2-W07-E1

Use your checked anonymous fieldwork, or supplied practice data S1–S3. Mark which source you use. The supplied site is fictional. Write the place type only.

1 Define the enquiry and justify the sample or source choice. Check what the method can and cannot show.

2 Produce or check a clear table and graph. Use two findings and, if useful, proportions. Keep the denominator and units clear.

3 Weigh an alternative explanation or coding issue. Explain how a better sample could test the claim and what would still remain uncertain.

My enquiry order

Question. Method. Table. Graph. Findings. Evaluation. Use the three-page evidence form. You can write, type, point or direct a scribe. You do not have to read aloud.

Finding frame: In section __, there are __ plots used for __. This is __ more or fewer than __. This helps answer my question because __.
