

Knowledge Organiser (LAUNCH W16): Steps in law, and what comes after

Humanities Spr 1 · 2026–27 · Workbook outcome: Study the Holocaust sensitively (Holocaust Memorial Day).

Key Word	Definition
Modelled:	Modelled: the register comes first, dated. The next measure excludes a named group from a profession, and it can be applied because a register already exists. So step one made step two administratively possible. That is the sentence pattern for every pair.
Ranked together:	Ranked together: for the purpose of establishing a record that outlasts everybody present, the trial ranks first. For the purpose of preventing repetition, teaching does. The ranking depends on the purpose, and the purpose has to be stated.

Key Facts

- These cards are dated records of laws. They are not stories and nobody in them is imagined.
- Sequencing shows that. A list of laws in the wrong order hides it.

Arrival Task

Retrieving how a sequence carries an argument

1) These cards are dated records of laws. They are not stories and nobody in them is imagined.

2) Sequencing shows that. A list of laws in the wrong order hides it.

Two orderings of the same six measures

Two learners order the same six cards. Ordering A puts the most severe measure first, because it is the one that stands out. Ordering B follows the dates, and the most severe measure comes last.

We Do 1: Put the six in date order, then say what each made possible

Cards 1 and 2: which is earlier, and what does the earlier one supply?

Card 4: what had to exist before this could be enforced?

Card 6: what makes this one possible that was not true at card 1?

We Do 2: Rank the three, and name the purpose you ranked for

Everyone writes a purpose and a ranking on a whiteboard, then we hold up together.

The model

Modelled: the register comes first, dated. The next measure excludes a named group from a profession, and it can be applied because a register already exists. So step one made step two administratively possible. That is the sentence pattern for every pair.

Ranked together: for the purpose of establishing a record that outlasts everybody present, the trial ranks first. For the purpose of preventing repetition, teaching does. The ranking depends on the purpose, and the purpose has to be stated.

Check yourself

- Check yourself: does each joining sentence say what the earlier step supplied?
- Check yourself: is your purpose written before your ranking?

Steps in law, and what comes after

SoW: 'LAUNCH Weekly - Spring'!C41 · 'LAUNCH Weekly - Spring'!C173 — "Study the Holocaust sensitively (Holocaust Memorial Day). · Justice, punishment & forgiveness."

Learning objective: I can sequence dated measures and say what each one made possible, and rank what a society does afterwards against a purpose I have stated.

Dated records only. No role play, no imagined first person. Nobody is asked what they would have done, or about their own family. Leaving the room is a route and needs no reason.

Sequence and ranking record

Date → measure → what it made possible. Then: purpose → ranking.

The first row is done for you, from the pair we joined together. It is in italics so you know it is not yours.

Exit Ticket – Supported

1) Read one joining sentence to a partner. They say back what the earlier step supplied.

2) Did they name something different? Change one phrase so the mechanism is clear. That change is your influence.

3) SPACE stays available, VOICE is received, AUDIENCE names back exactly and INFLUENCE changes one real next action.
