Teacher and Cover Plan

I can choose one small next step and show how to check it.

At check-out, record E for today's lesson against each pupil's target on the evidence app.

At check-out, record E for choosing a checkable next step from the real work against the pupil's target.

Regulation: check the colour-and-word card at Arrival and after You do.

You may point to the real work, draw a clue, or tell an adult what to record. A quiet review has the same value. You may pass.

Keep the work on the desk. Ask before you move shared work. Keep any short cue test quiet. No solo is needed.

Practice evidence only. No completion decision, encounter, public event or completed response is pre-filled.

Invite a response. Allow thinking time. The pupil may pass.

Stage timings

Stage	Minutes
Arrival including opening	4
Starter	3
I do	5
We do shared investigation	5
We do decision checkpoint	2
You do	15
Review and improve	4
Exit ticket	2
Total	40

I do staff script

Ask the question

Watch the model: use the real clue to choose one small change.

Return to the strength and observation from the model demonstration. Label it as a model, separate from pupil work. Explain that a strength can stay while another small part improves. Pick a cue position as a manageable next step, rather than changing the whole piece.

Find the evidence

Pick one cue to make clear. Move just that cue where all can see it.

Show two cue positions without asking a pupil to perform alone. Ask the group to indicate visibility in private or by pointing. Choose one change that follows from an actual observation. Explain why making everything better is too broad to test.

I do staff script continued

Explain the link

Keep the short part the same. Check who can see the cue on a new try.

Use a short silent pointing sequence to check the cue. Keep the part and the viewing positions constant and change only the cue position. Agree in advance what will be observed, such as whether the cue is visible and the stop is followed. Do not assume the second try worked.

Check what we know

Record what you saw. If you have not tried it, keep it as a plan.

Model an honest record: describe the observed result or mark the next step as not yet tried. A plan is useful but does not prove improvement. Share privately or within the team, with a pass available. Keep the pupil response blank until they respond to the actual feedback.

We do staff script

Bring back a real strength note and clue from Lesson 1.

Choose one small change that follows from the real work.

Say what we will look for. Try one quiet cue check if useful.

Keep the strength, next step and check together. Record a result only if seen.

Check that the group is using an actual Lesson 1 record. If it is missing, use the absence or access route to make one honest review note first.

Use a specific cue change and agree what could be seen or heard on a short check. Quiet pointing, drawing or directing has equal value. Keep every other feature steady where possible.

Compare the observation with the intended check. If a test has not happened, label the note as a plan. Use the checkpoint to confirm a checkable next step before independent work.

We do decision checkpoint

Which next step can we try and check?

A · Raise the cue and check who can see it.

B · Make the whole piece good.

A gives one small change and one thing to check.

Release the completed review task when pupils choose A and show what will be checked. If they choose B, help them select one cue, one change and one observable result. Repeat the choice and use the parallel check before reducing support.

You have a next-step plan but have not tried it. Can you say it worked?

No. Keep it as a plan. Record a result only after an actual check.

Review and improve

Share your strength and next step with one adult or your team. You may pass.

Use one next step to make your review clear.

Check the link to the real work. Keep a plan separate from a result.

Optional: show or tell an adult what you changed after feedback. You may use your usual response mode or pass.

Mark R only after the pupil has responded to the next step and an adult has received and reflected the response.

Adult ticks the improved work.

Pupil voice

What helped you most today, or what would you change next time?

Point, speak, sign, draw, write or choose. You may pass.

Next lesson · Choose and organise your real records

Staff print card

At check-out, record E for today's lesson against each pupil's target on the evidence app.

At check-out, record E for choosing a checkable next step from the real work against the pupil's target.

Regulation: check the colour-and-word card at Arrival and after You do.

VF · WS · I · NS + … · E · R · // · ?

Soft instrumental music for transitions if the class plan says so. Sound off by default.

P17 planning and evaluation

For absence or access, use the first worked card in I do or We do. If behind, keep one model cue, the checkpoint and one book response.

Cognition and learning

Keep a model and a two-choice start in view. Fade one cue when the pupil shows the next step.

Communication and interaction

Allow thinking time. Use a visual choice and a brief stem. Accept all listed modes or a pass.

SEMH

Offer a calm start and a private response. Keep quiet sharing equal in value.

Sensory and physical

You may point to the real work, draw a clue, or tell an adult what to record. A quiet review has the same value. You may pass.

EAL

Plan in any language. Show the term with a picture and action.

Staff evaluation

Record one actual response, a useful adaptation and the next teaching action.

P18 individual target opportunities

Use the current target in private. Record the actual response and support.

Adult deployment and responsive feedback

Point to the place or instruction.

Ask one short question.

Rephrase the instruction.

Give a scaffold or a choice.

Model the first step only, then return the task.

First lesson back

Read once only. Welcome pupils and check the last work in private. Offer a quiet route back in.

Return to learning

Offer the first model cue, then rejoin the chosen route.

Topic guidance

Use actual work or an authentic observation from the group piece or its quiet role. Keep model examples separate from pupil records. Do not infer a public event, attendance or success. If no record exists, offer a short quiet cue test and label it as fresh practice.

Practice evidence only. No completion decision, encounter, public event or completed response is pre-filled.
