Staff answers and response guide

Help that gets heard

These are possible responses and task guides, not learner observations. Accept a defensible answer based on the facts or actual work. Record each learner's reasoning and support.

Card key

Card	Judgement or step	Possible action
A	Task help. One instruction is unclear.	Point to it and ask the adult to show the first step.
B	Communication. Spoken words feel hard.	Write or point to a private-talk request.
C	Clarify. The reply is vague.	Ask when and what will happen next.
D	Safety help. The messages cause a safety concern.	Tell a trusted adult promptly and privately.
E	Backup. The first route is unavailable.	Ask another available trusted adult.
F	Keep seeking help. The safety concern has not been addressed.	Tell another trusted adult and say help is still needed.

Model and hinge

Kit cannot read a task instruction. Kit points to the line and asks for help. The adult says they will help soon. Kit asks: When can we do the first step? The adult gives a clear time and step. Kit checks the step or asks another adult.

B. Ask for a clear next step or time. A hides the unmet need; C shares private information too widely. If the case is a safety concern, seek help promptly; immediate danger needs emergency help, not a delayed appointment. Reteach with "Please show me what to do next."

Individual evidence key

Record the learner's own words or signs, the adult's real practice reply and a workable next step. Ordinary task help may wait for an agreed time; a safety concern needs prompt support. A scripted example is not evidence that an actual safeguarding event occurred.

Feedback boundaries and next teaching

Card A: A short agreed wait can suit an ordinary task.

Card B: Use usual AAC and record the mode.

Card C: Do not accept a vague reply as a completed support plan.

Card D: Do not show or collect real messages as class evidence.

Card E: Staff confirm the available route before teaching.

Card F: Never blame the learner for an adult’s poor response; follow safeguarding procedures.

Common misunderstandings

A reply is not always a clear plan. Asking again or using another adult is allowed. A learner may communicate by pointing, note or AAC without speaking publicly.

Teaching boundary

Fictional cases only in group discussion. No acted threats, disclosure demand or live emergency call. Keep any real concern in the separate safeguarding process.

Feedback

If a reason is missing, return to the fact or actual work. Re-model a different example, then keep the learner’s own revision. Use NS+ and the learner response in their own colour before R. E means evidence actually banked. Keep safeguarding records separate.

Assessment boundary

GROW-PSHE-W6-E1 contributes to the source assessment. No criterion, registration or award completion is invented. Sources: FACTS_LEDGER.md.
