# Tier pack: Aspire route — Build the studio brief

Pathway: BASE · Week 4 Part 2 · Big question: How do we plan our relief panel with three clear choices?

## Aspire route studio steps

Step 1: Sketch two quick mini-ideas (tall tower vs wide span) in the top corner boxes.

Step 2: Pick the strongest layout. Draw it large in the main blueprint frame.

Step 3: Mark exact layer numbers (1, 2, 3). Art tool zones (smooth card, ridges, foil).

Step 4: Write one short line explaining why your chosen layout has strong balance.

## Success check

Two thumbnails plus a fully labelled three-layer blueprint.

## Make-it studio planner

Lock in the three studio choices for your relief panel brief.

Options: Wide arch span, Twin tower frame, Triangle truss bridge, Crossed beam wall

## Review checklist

[ ] Point to where Layer 1, Layer 2,. Layer 3 sit on your plan.

[ ] Check that your pointer labels are easy to read.

[ ] Tell a partner which part of your panel you will cut first next time.
