Key words & studio mat — The local canvas: architectural line and form

Pathway: TRACK · Week 1 Part 2 · Big question: How can we use structural line, negative space, and surface frottage to record built architecture?

Key words for ART_GROW_A1_W01_P2 (TRACK)

NEGATIVE SPACE — The open air gaps and shapes trapped between solid beams.

TRUSS — A rigid framework of steel or timber beams arranged in repeating triangles.

LINE WEIGHT — Varying line thickness from light construction lines to heavy foreground edges.

FROTTAGE — Taking a surface texture rubbing with graphite or wax over a relief surface.

PROPORTION — The size relationship between height, span, and beam thickness.
