Tier pack: Supported route — Creative practitioners and studio roles

Pathway: TRACK · Week 5 Part 2 · Big question: How do sculptors, printmakers, and exhibition designers turn raw materials into public artworks?

Supported route studio steps

Step 1: Match the three creative roles (Sculptor, Printmaker, Designer) to their studio tools on your sheet.

Step 2: Sketch or glue a small layered beam study into the 'Maquette diagram' box.

Step 3: Tick the two studio steps you have already used in this unit (testing textures and building card layers).

Step 4: Complete the sentence: 'Like a sculptor, I tested ___ before finishing my panel.'

Success check

Three roles matched, maquette diagram completed, and personal studio link written.

Key words helper

• practitioner: A skilled creative maker who works with specialist studio methods.

• maquette: A small-scale 3D test model built to check form and balance before making a big sculpture.

• fabrication: Building and joining the full-size artwork in a workshop or foundry.

Review checklist

[ ] Check that your study sheet includes both a visual diagram and clear written links to your own panel.

[ ] Share with a partner which of the three creative studio roles you would enjoy most in our Week 7 showcase.

[ ] File your practitioner study page in your studio log.
