Tier pack: Aspire route — Plan and rehearse a studio skill demonstration

Pathway: TRACK · Week 6 Part 2 · Big question: How do we break a practical relief or surface technique into three teachable steps for peers?

Aspire route studio steps

Step 1: Construct a three-stage visual exemplar board plus a small 'Try it Here' mini-kit (two pre-cut blanks and the tool).

Step 2: Include clear annotations on tool angle, pressure, and how to fix common errors.

Step 3: Rehearse guiding your partner through a 60-second live hands-on trial using your board and mini-kit.

Success check

Exemplar board, live-try mini-kit, and rehearsed hands-on coaching sequence.

Make-it studio planner

Build your three-step skill demonstration plan.

Options: Skill: Foil embossing + wipe, Skill: Dry-brush iron ridges, Skill: Laminated card gussets, Skill: Negative-space truss

Review checklist

[ ] Check that all three sample tiles are glued firmly to your demonstration board.

[ ] Confirm your partner could follow all three steps during your rehearsal.

[ ] Store your demonstration board alongside your finished relief panel for Week 7.
