Tier pack: Aspire route — Deliberate practice and documented progression

Pathway: SUMMIT · Week 2 Part 1 · Big question: How do we use structured three-stage deliberate practice to master a target skill and document progression?

Aspire route studio steps

Step 1: Complete the three-stage deliberate practice sequence demonstrating cross-contour volume and five-value tonal control.

Step 2: Execute a fourth 'Stress test' study combining your mastered technique with a contrasting secondary medium (e.g. ink wash over wax/collage).

Step 3: Write an analytical evaluation assessing how surface resistance and layering order affect tonal precision.

Success check

Three progression studies, fourth mixed-media stress test, and analytical evaluation.

Make-it studio planner

Set up your three-stage deliberate practice sequence.

Options: Focus: Cross-contour graphite, Focus: Feathered ink wash, Focus: Layered pastel blending, Focus: Precision collage tone

Review checklist

[ ] Lay your Week 1 baseline audit next to Study 3 on today's sheet to verify measurable growth.

[ ] Check that both Diagnostic bridge notes clearly explain what you changed between trials.

[ ] File your progression board as Page 2 of your studio portfolio.
