Tier pack: Supported route — Analysing a practitioner without copying the page

Pathway: SUMMIT · Week 3 Part 1 · Big question: How do we conduct rigorous visual analysis of a practitioner's work through annotated studies rather than biography copying?

Supported route studio steps

Step 1: Shade the pre-outlined Box 1 Tonal map using dark, mid, and light pencil tones to match the print.

Step 2: Place your viewfinder on the print and copy the layered marks inside Box 2.

Step 3: In box 3, draw your own personal symbol using the same dark/mid/light layout and mark style.

Step 4: Add three pointer notes explaining the layer order.

Success check

3-tone map, viewfinder close-up study, personal adaptation, and three pointer notes completed.

Key words helper

• visual analysis: Examining how an artwork is constructed visually (tone, composition, mark-making) rather than copying biographical facts.

• tonal map: A simplified 3-to-5 value thumbnail that reveals where the artist placed darks, mid-tones, and lights.

• transcription: A focused study of a small section made to reverse-engineer the layer order and tool marks.

Review checklist

[ ] Check that your page has zero biographical filler and 100% visual/technical analysis.

[ ] Verify that arrows or numbered notes clearly link Box 1 (Tone), Box 2 (Process), and Box 3 (Your adaptation).

[ ] Add your practitioner sheet to your studio portfolio.
