Food Chain Investigation · TA Brief

Learning goal: I can build a food chain starting with a plant and point the arrows the right way.

Watch (staff preview first)

Short silent teacher demonstration clip for this lesson's model and practical sequence · preview before class use.

Adult Support Routine

No cold calling; nobody is asked to read difficult text aloud.

Give time to start -> point to the relevant place -> rephrase -> offer a small prompt or word bank -> reduce to a limited choice.

Beside the You do in the pupil book, mark I (independent), S (supported) or C (choice).

Must-Know Words

food chain: a line of living things that shows who eats what

producer: a green plant at the start of a food chain that makes its own food

consumer: an animal in a food chain that eats plants or other animals

is eaten by: what the arrow (->) means in a food chain

Key Answers

A. Replacing the arrow with 'is eaten by' proves the arrow points from food to eater.

A. Start with the plant (Leaf) and point the arrows to the eater: Leaf -> Caterpillar -> Robin.

1. Grass (green plant / producer). 2. Grass -> Rabbit -> Fox (or Oak leaf -> Caterpillar -> Robin). 3. 'Is eaten by' (shows the direction food goes from the food to the eater).
