

Continents and oceans

Pupil resources | BUILD Humanities Summer 1

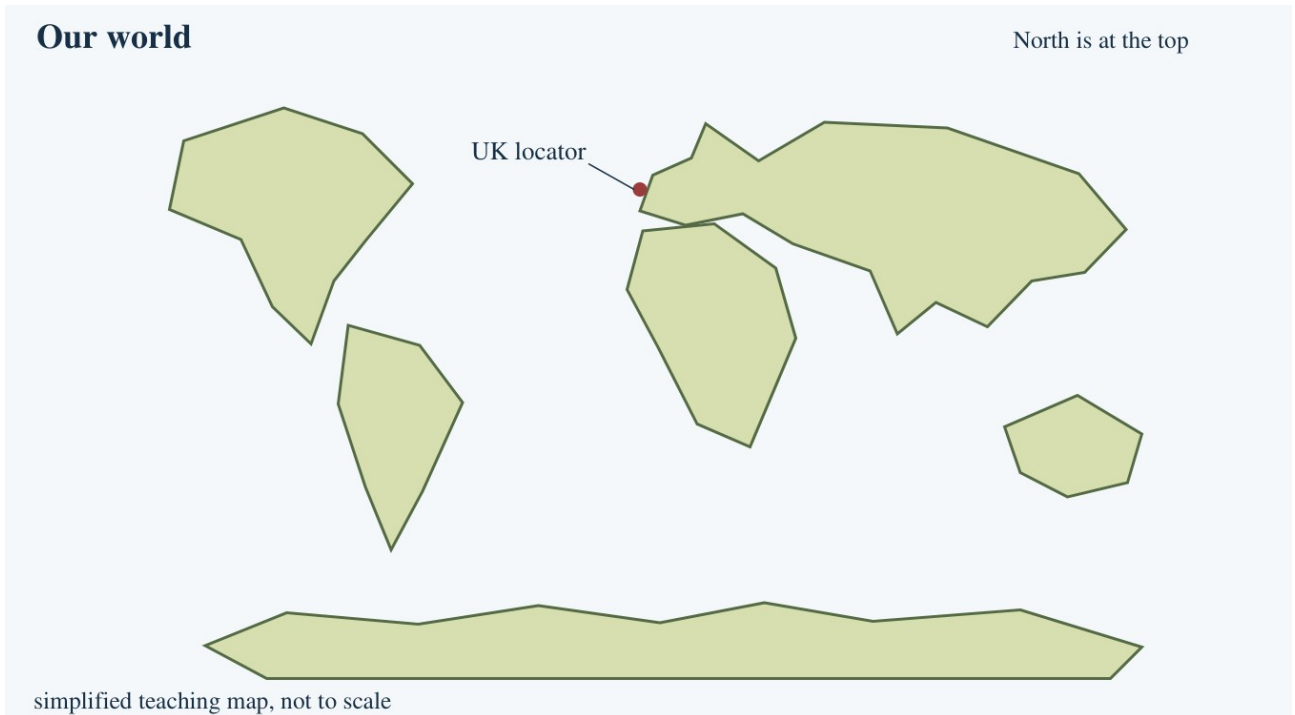

Talk about the wider world using continents and oceans.

Use the pupil world map and label bank. Point, place a card, speak, draw or write.

My world map

Place or write labels, then point and explain

Use the label bank or the reduced choice bank your adult gives you. You may point or place a label while an adult records your own choice. The UK dot helps you start; it is not a country border.

My chosen continent

My chosen ocean

World-map label cards

Cut out or copy the names

Place each name on land or water. Use the reference map to check after your first attempt. One Pacific label may sit on either edge: it is the same ocean.

Continent labels	Ocean labels
Africa	Arctic Ocean
Antarctica	Atlantic Ocean
Asia	Indian Ocean
Australia	Pacific Ocean
Europe	Southern Ocean
North America	
South America	

Reduced choice bank

Continent	Ocean
Europe	Atlantic Ocean

Seven continents and five oceans. Land shapes and distances are simplified. There are no country borders on this teaching map.

Arrival task

Supported | Continents and oceans

A continent is a large land region. An ocean is a named part of the world's connected salt water. We will use the labels together.

Use the reference sheet. Start with questions 1 and 2.

1. Point to some land.

Help: Use a green or cream land shape.

My response

2. Point to some ocean.

Help: Use the blue area.

My response

3. Find Europe using the label.

Help: Look near the UK callout.

My response

4. Choose the ocean name: Atlantic Ocean or Europe.

Help: An ocean name labels water.

My response

Arrival task

Standard | Continents and oceans

A continent is a large land region. An ocean is a named part of the world's connected salt water. We will use the labels together.

Use the reference sheet. Start with questions 1 and 2.

1. What is a globe?

Help: Think about its shape.

My response

2. Is Africa a continent or an ocean?

Help: Find Africa on land.

My response

3. What continent contains the UK?

Help: Use the dot and label.

My response

4. Name an ocean from the map.

Help: Choose any ocean label.

My response

Arrival task

Stretch | Continents and oceans

A continent is a large land region. An ocean is a named part of the world's connected salt water. We will use the labels together.

Use the reference sheet. Start with questions 1 and 2.

1. Name a continent south of Europe.

Help: Look down the north-up map.

My response

2. Which ocean lies between the Americas and Europe?

Help: Read the water label.

My response

3. Why is Pacific written at both edges?

Help: A flat map has to have a cut.

My response

4. Can this drawing compare exact continent sizes?

Help: Read the map caption.

My response

Shared activity

Match a clue to the world map

- 1. Use the labelled world map to match each clue to a place.
- 2. Partners place one continent card and one ocean card on a paper map.
- 3. Point to each choice, check it, then swap roles.

Card	My choice
The continent containing the UK.	
The continent south of Europe, with the Atlantic to its west.	
The ocean between the Americas and Europe/Africa.	
The ocean shown at both the left and right edges.	

Our evidence and explanation

Independent task

Supported | Continents and oceans

Talk about the wider world using continents and oceans.

Use the pupil world map and label bank. Point, place a card, speak, draw or write.

1. Use the reduced bank: Europe and Atlantic Ocean.
2. Place or write each label on your pupil map.
3. Point to and name one continent and one ocean yourself.

Help: Use the labelled map for reference. An adult can read the names, then fade the location prompt.

My continent and map position

My ocean and map position

My check

A fact about the wider world

Further challenge: Choose Africa or Indian Ocean for a new check.

Independent task

Standard | Continents and oceans

Talk about the wider world using continents and oceans.

Use the pupil world map and label bank. Point, place a card, speak, draw or write.

1. Choose one continent and one ocean from the full word bank.
2. Mark both on your pupil world map.
3. Name each and say where one is using another map label.

Help: Use: ____ is a continent. ____ is an ocean. It is beside/between ____.

My continent and map position

My ocean and map position

My check

A fact about the wider world

Further challenge: Find the UK and name its continent.

Independent task

Stretch | Continents and oceans

Talk about the wider world using continents and oceans.

Use the pupil world map and label bank. Point, place a card, speak, draw or write.

1. Locate two continents and two oceans on the pupil map.
2. Describe one ocean's position using nearby continents.
3. Explain why Pacific appears at both edges.

Help: Use the labelled reference to check locations, then give your own explanation.

My continent and map position

My ocean and map position

My check

A fact about the wider world

Further challenge: Explain one reason to compare this map with a globe.

Exit tickets

Use only your chosen route

Give your own response. Your usual communication support can stay.

Supported

1. Point to and name Europe on your map. Choose it from your two-label bank if needed.

2. Point to and name the Atlantic Ocean. Use your own location response.

Standard

1. Name and locate a continent of your choice. Point, label or speak.

2. Name and locate an ocean of your choice. Say one way you checked.

Stretch

1. Name and locate a continent and a neighbouring ocean. Describe their relative positions.

2. Why are the two Pacific labels one ocean? Use the flat map and round Earth explanation.
