Theme: Resilience & Change. Six-week term, Week 6 assessing.

Exact weekly outcome

Experiencing work: placement/simulation.

Learning and evidence

Same invented paper-pack business. Four-stage task cards: set up, make/check, record, hand over. Twelve-minute timed simulation with role swap where possible. Each learner keeps truthful task/progress and handover evidence, short reflection, five Week 1 expectation ratings and a next step/reply.

Forty minutes

0–5	Retrieve expectations and safety/help.
5–13	Model four stages and honest handover.
13–23	Sequence/role rehearsal, timed list, private hinge.
23–35	Shift: set up 2, make/check 4, record 3, hand over 3.
35–40	Reflection, five self-ratings, NS/reply and save.

Placement and access

A real placement arranged by the school replaces the classroom simulation. Use the same reflection sheet unchanged. School confirms tasks, supervision, access and actual timing separately; the twelve-minute classroom list is not a real-placement schedule. Record actual date, mode, task and evidence. If activity has not happened, mark pending and do not invent experience.

Usual aid, typing/exact scribe, adult partner and private help/pause/return. C90 exact, source context generic. Where this leads: accurate work record, handover and a useful improvement.
