# Staff answers

Task guides and invented examples, not learner observations.

## Exact weekly outcome

Following instructions & teamwork.

## Assembly result

Two paper packs. Each has one large card and one strip beside it, not on top. Both packs must be checked against the written order. Reader is checker; maker is preparer for the turn. Reset and swap. Record actual turns and unfinished work honestly.

## Model and keys

“Put stuff there quickly.” does not specify materials, number or place; quickly adds unhelpful pressure. “Put one paper strip beside each large card.” names the part, number and position. CfU key: one paper strip beside each large card. Main B: pause and clarify if unclear. Parallel A: compare work with the instruction instead of assuming completion. Re-model/recheck privately; pass unobserved.

## Roles and communication

Reader reads the header/order, then one numbered step aloud and waits. Maker sees the same sheet, checks meaning in usual communication mode, then acts. Both check the result.
Reading/communication support may carry a learner-selected message; it must not supply the learner’s judgement without being recorded. Never hide instructions or remove aids to test listening.

## Round guide

23–29 round one; reset/swap and 29–35 round two. Six minutes each includes processing, assembly/check and a brief role note. Pause/reduce repetitions for access, retain both-role opportunity, and record missing turns. A slower or supported task can still show instruction use and teamwork.

# Checklist reflection and expectations

## Six checklist checks

Goal: header says make two paper packs. Parts: two large cards and two paper strips. Order: four numbered steps. Exact words: one strip beside each card, not on top. Finish check: each pack has one card and one strip. Help: pause/re-read/ask and check meaning before doing. These support Clear; accept a justified Needs a change if a learner explains a practical ambiguity or access issue. Not checked yet is honest when no judgement was made.

## Useful instruction improvement

Accept one relevant change, for example a larger step number, a clearer reading pace or an agreed picture beside a step. A learner may say the wording is clear and propose an access improvement. Keep the original task quantity and order; do not turn it into a faster output target.

## Short clarity reflection

When I didn't understand I… Possible response only if it happened: “I asked the reader to say the step again, then checked where the strip went.” Or use: Nothing was unclear today; a check that helped was… / I did not try this part yet; the help I need is… No uncertainty has to be invented. A statement such as “I asked” can be extended privately by asking what the question clarified.

## Five Week 1 labels

| Expectation | Possible evidence |
|---|---|
| Readiness and reliability | I checked the task and materials or asked for help to get ready. |
| Respectful communication | I listened or read and used a clear question or reply. |
| Instructions and quality | I checked a step or finished work against the instruction. |
| Safety and help | I kept the area clear or asked before doing an unclear task. |
| Teamwork and responsibility | I agreed a role, shared a useful update or reported a mistake. |

Four rating statements retained exactly. No total score; usual aids are access. A prompt that supplied thinking is recorded separately. Use Not seen today for unattempted role/opportunity.

# Access evidence and portfolio

## Tiers

Supported keeps four steps, role routine, model and frames. Standard explains a checklist judgement and clarification/check. Stretch improves possible ambiguity and explains a teamwork adjustment. All keep the same six-item checklist, short reflection, five expectations and own actual role record. More writing is optional.

## Access and private help

Adult partner, reading/communication aid, exact scribe/readback, pointing, typed route, private response and plan in any language. Pass/pause/return. Do not force peer performance or personal employment accounts. If a concern is shared, listen calmly, avoid probing or secrecy promises and use the usual school route; keep it outside shared evidence.

## Evidence and feedback

Keep the actual reader/maker turns, result check, six judgements and improvement, reflection, five ratings, clue and one NS/reply. No partner work or model as independent evidence. Normal access differs from content prompts. E real saved work; R after Voice, Audience, NS and reply in usual mode. Offer to Communication portfolio; staff confirm mapping. No job-readiness or real-placement inference.

## Safe delivery

Ready-cut paper only. No tools, machinery, real customers, money, food, data or deliveries. Keep clear/report any actual concern and follow school procedures. The task is a classroom assembly practice, not a workplace competence test.

## Source and queue

B91/C91 exact. Friday 29 January 2027 P1, pair, forty minutes formative; Week 6 assessing. Only Week 4 authored. Week 5 customer service and Week 6 reflection follow one per return. Same invented business; further GROW Careers paused.
