Staff answers and response guide

Wellbeing and taking part

These are possible responses and task guides, not learner observations. Accept a defensible answer based on the facts or actual work. Record each learner's reasoning and support.

Card key

Card	Judgement or step	Possible action
A	Barrier. Too many spoken steps.	Offer short steps in words and pictures.
B	Support. The setting feels too busy.	Ask staff about a quieter place or pause.
C	Access. The controls block taking part.	Ask Lee what would help; adapt the controls or role.
D	Help. The worry is not going away.	Ask a trusted adult for a private talk.
E	Choice. Kit has named a helpful activity.	Agree a brief break and a return step.
F	Voice. Jo has not been heard.	Ask Jo what is wanted and check the effect.

Model and hinge

Jo cannot follow a long spoken task. The adult asks what would help. Jo asks to see one step at a time. The adult gives a short visual guide. Jo can ask for a pause or more help. They check if the change helped Jo join in.

B. Listen to Jo and adapt the task so Jo can take part. Different support can give fair access. A ignores the barrier; C removes Jo's voice. Reteach with a short instruction shown as a picture and words, then ask the learner which version helps.

Individual evidence key

Credit a specific barrier, a feasible helpful change and a reason linked to participation or wellbeing. Ask the person what helps; do not diagnose. A fictional plan is valid practice and must be labelled as such. Staff check the actual help route privately.

Feedback boundaries and next teaching

Card A: Ask Jo which form is useful; do not infer a diagnosis.

Card B: Use an agreed supervised option; do not send a pupil away alone.

Card C: Avoid simulations of disability or assumptions about ability.

Card D: A small wellbeing action is not a cure or replacement for support.

Card E: Different people may choose different supports.

Card F: Staff safety duties still apply; explain any limits respectfully.

Common misunderstandings

Fair access may require different support. Disability does not mean mental ill health. A calm activity may help someone but is not a cure, and a person should not have to disclose a diagnosis to ask for help.

Teaching boundary

Use fictional cases, role labels and a pass. No pupil must disclose health needs or family circumstances. Do not imply disability is a problem to fix; address barriers and respect choice. Follow the local safeguarding route for real concerns.

Feedback

If a reason is missing, return to the fact or actual work. Re-model a different example, then keep the learner's own revision. Use NS+ and the learner response, in the same colour, on the same page or usual mode, before R. E means evidence actually banked. Keep safeguarding records separate.

Assessment boundary

GROW-PSHE-W5-E1 contributes to the source assessment. No criterion, registration or award completion is invented. Sources: FACTS_LEDGER.md.
